High-speed Superbikes Oct 20 2022 High-

Speed Superbikes offers a colorful look at some of the most glamorous bikes used on the road and race track today.

Mv Agusta Dec 30 2020 After an absence from the scene lasting fully 20 years, MV Agusta returned to the limelight in 1997 with a product of extraordinary appeal, the F4 750, "the world's most beautiful bike", as an advertising slogan of the time read. The immense popular and critical success enjoyed by a model that became an instant classic, a cult object that generated numerous special versions, was sadly not sufficient to allow the firm from Cascina Costa to rest easy. The death of Claudio Castiglioni, in 2017, and the various changes of ownership meant that the marque was frequently navigating troubled waters. Nonetheless, MV found renewed impetus in 2018 after coming under the control of the Sardarov family. The most recent history of one of the greatest marques of motorcycling is deserving of this prestigious book that on the one hand narrates

the story and places the MV brand within the historical context of the last few years, while on the other reviewing the entire output of the firm, from the birth of the F3, Brutale and Rivale families and through to the Superveloce and Dragster models. The texts have been written by Giorgio Sarti, a doyen of motorcycle history, while the illustrations have been drawn directly from the MV archives.

Cafe Racers Nov 16 2019 DIVA photographic chronology of some of the fastest, most stylish, and most individualized bikes in motorcycling history.
Originally used as a slur against riders who used hopped-up motorcycles to travel from one transport café to another,

“café racer” describes a bike genre that first became popular in 1960s British rocker subculture—although the motorcycles were also common in Italy, France, and other European countries. The rebellious rock-and-roll counterculture is what first inspired these fast, personalized, and distinctive bikes, with their owners often racing down public roads in excess of 100 miles per hour (“ton up,” in British slang), leading to their public branding as “ton-up boys.” Café Racers traces café racer motorcycles from their origins in the mid-twentieth century all the way into modern times, where the style has made a recent comeback in North America and Europe alike, through the museum-quality portraiture of top motorcycle photographer Michael Lichter and the text of motorcycle culture expert Paul d’Orléans. Chronologically illustrated with fascinating historical photography, the book travels through the numerous ever-morphing and unique eras of these nimble, lean, light, and head-turning

machines. Café Racers visually celebrates a motorcycle riding culture as complex as the vast array of bikes within it./div

two- and three-wheeled ancestors that first appeared in the late nineteenth-century. Packed with archival and specially commissioned photographs, this stunning volume traces the evolution of the motorcycle, documenting the major milestones in this illustrious history and spotlighting the most influential models that have emerged over the last century. Among the many manufacturers whose bikes are represented are BMW, Ducati, Harley-Davidson, Honda, Moto Guzzi, Suzuki, Triumph, and Yamaha, all of which are showcased in hundreds of brilliant color photographs. Accompanying the extraordinary photographs are the stories behind the vehicles, with a wealth of technical information about each motorcycle.

Classic Bikes Jun 16 2022 Many of the bikes featured in this book are classics from the heyday of motorbike manufacturing. Sadly a number of these famous names - such as Ariel, BSA and Velocette - are consigned to the history books and the bikes themselves have become more and more of a collector's item. Some credit the demise of the British motorbike industry to the invasion of the Japanese manufacturers (Kawasaki, Suzuki, Honda and Yamaha) in the 1970s. They changed the face of motorcycling in Britain as they established themselves as a global phenomenon. But brands such as Royal Enfield, Norton and Triumph have survived into the 21st Century and now proudly cruise the country's roads alongside the likes of Harley-Davidson and BMW.

The MV Agusta Story May 15 2022 With 75 World Championships (riders and manufacturers), 270 Grand Prix victories, and more than 3000 International race wins, MV Agusta's competition record is unequalled amongst Italian motorcycle manufacturers. MV's list of World Champions includes some of the greatest names in the sport, with Carlo Ubbiali,

John Surtees, Mike Hailwood, Giacomo Agostini and Phil Read winning multiple times. Alongside the magnificent racing bikes MV produced a wide range of street models, including the exotic four-cylinder bikes based on the Grand Prix racers of the 1950s and early 1960s. After closing in 1977 MV Agusta was resurrected by Cagiva in 1997 and released the Massimo Tamburini-designed four-cylinder F4. Initially 750cc, this evolved into 1000cc and the Brutale series. In 2012 the three-cylinder F3 joined the F4 and a large range of models has grown from these two platforms. With a 50 year passion for Italian motorcycles, The MV Agusta Story tells the full story of MV Agusta, covering all the street and racing models from 1945.
