These pieces are delightfully challenging for intermediate pianists and their musical messages are invariably interesting and clear. Editor Willard A. Palmer has maintained the music in its original form to achieve a performance as intended by the composer. instrument and offers progressive instruction in all areas of technique, including posture, fingering, pedalling, scales, and exercises. Expertly arranged Piano music by Felix Mendelssohn from the Kalmus Editions series. These Romantic era songs were written for advanced players. This collection contains all fifty Songs Without Words and the Six Children's Pieces Album For The Young features 64 classic Piano pieces inspired by the spirit of childhood. From Johannes Brahms' unashamedly lyrical *Wiegenlied* through the more cerebral approach of Schumann's album *Für die Jugend* and the works of contemporary composers such as Lutoslawski and Richard Rodney Bennett, the music contained in this collection offers many contrasting approaches to the idea of music for the young. Great composers down the ages have been consistently attracted to writing albums about or for the young. Some pieces are suitable for children to play and some are drawn from the nostalgic memory of childhood innocence. Here is a unique collection to treasure, reflecting the variety of both their emotional approaches and the richness of their creative responses. Includes music. Brings new insights to the music of well-known European composers by telling a fascinating, little-known story about French music publishing, specifically through the lens of Jacques Durand's *Édition Classique*. French composers, performers and musicologists acted as editors of eighteenth- and nineteenth-century European 'classics', primarily for piano. Among these editors were Fauré, Saint-Saëns, Debussy, Ravel and Dukas; the objects of their enquiries included core works by Rameau, Bach, Mozart, Beethoven, Mendelssohn, Schumann and Chopin. Presenting six composer-editor case studies, the volume

shows that the French 'accent', both musical and cultural, upon this predominantly Austro-German music was highly varied. Editorial responses range from scholarly approaches to those directed by performance or compositional agendas, and from pan-European to strongly patriotic stances. Intriguing intersections are revealed between old and new, and between French and cross-European canons. Beyond editing, the book explores the Édition's role in pedagogy and performance, including by pianists Robert Casadesus and Yvonne Loriod, and in the reassertion of contemporary French composition, especially regarding innovation around neoclassicism. It will interest a wide readership, including musicologists, performers and concert-goers, cultural historians and other humanities scholars.
