*The Dusty Ones Oct 31 2020 Through every turn of the biblical story, God's people are a wandering people. When they are rescued from slavery in Egypt, God sends them into the desert, where they wander for a generation. Jesus and his disciples wander from town to town. In fact, some of God's most important truths are imparted to people with dusty feet as they travel on the road. With his trademark thoughtful introspection, A. J. Swoboda boldly suggests that wandering is not an absence of faith but a central component of faith. In *The Dusty Ones*, he leads the restless, the frustrated, and the curious on a spiritual journey to uncover the answers to questions like - Do I wander because I'm failing or because God has left me? - Is the desert something I can overcome? - Why is God sometimes "hidden" in the Bible? - What do I do when the end seems nowhere in sight? This compassionate and contemplative book offers hope and peace to Christians and seekers alike as they make their way down the winding road of faith.*

Inspired Jun 19 2022 "Remarkable. This profound volume informs and inspires." -PW, STARRED review From the Pulitzer Prize-winning New York Times science reporter acclaimed for "bring[ing] scientific concepts to life" (Bill Gates), a pathbreaking new investigation into the mysteries of human creativity How does creativity work? Where does inspiration come from? What are the secrets of our most revered creators? How can we maximize our creative potential? THIS IS THE STORY OF HOW WE CREATE. Creativity defines the human experience. It sparks achievement and innovation in art, science, technology, business, sports, and virtually every activity. It has fueled human progress on a global level, but it equally is the source of profound personal satisfaction for individual creators. And yet the origins of creative inspiration and the methods by which great creators tap into it have long been a source of mystery, spoken of in esoteric terms, our rational understanding shrouded in complex jargon. Until now. Inspired is a book about the science of creativity, distilling an explosion of exciting new research from across the world. Through narrative storytelling, Richtel marries these findings with timeless insight from some of the world's great creators as he deconstructs the authentic nature of creativity, its biological and evolutionary origins, its deep connection to religion and spirituality, the way it bubbles in each of us, urgent and essential, waiting to be tapped. Many of the questions Richtel addresses are practical: What are the traits of successful creators? Under which conditions does creativity thrive? How can we move past creative blocks? The ultimate message of Inspired is that creativity is more accessible than many might imagine, as necessary, beautiful, and fulfilling as any essential part of human nature.

Jane and the Wandering Eye Jan 26 2023 As Christmas of 1804 approaches, Jane Austen finds herself "insupportably bored with Bath, and the littleness

of a town." It is with relief that she accepts a peculiar commission from her Gentleman Rogue, Lord Harold Trowbridge—to shadow his niece, Lady Desdemona, who has fled to Bath to avoid the attentions of the unsavoury Earl of Swithin. But Jane's idle diversion turns deadly when a man is discovered stabbed to death in the Theatre Royal. Adding to the mystery is an unusual object found on the victim's body—a pendant that contains a portrait of an eye! As Jane's fascination with scandal leads her deeper into the investigation, it becomes clear that she will not uncover the truth without some dangerous playacting of her own....

Education of a Wandering Man Dec 21 2019 From his decision to leave school at fifteen to roam the world, to his recollections of life as a hobo on the Southern Pacific Railroad, as a cattle skinner in Texas, as a merchant seaman in Singapore and the West Indies, and as an itinerant bare-knuckled prizefighter across small-town America, here is Louis L'Amour's memoir of his lifelong love affair with learning—from books, from yondering, and from some remarkable men and women—that shaped him as a storyteller and as a man. Like classic L'Amour fiction, *Education of a Wandering Man* mixes authentic frontier drama—such as the author's desperate efforts to survive a sudden two-day trek across the blazing Mojave desert—with true-life characters like Shanghai waterfront toughs, desert prospectors, and cowboys whom Louis L'Amour met while traveling the globe. At last, in his own words, this is a story of a one-of-a-kind life lived to the fullest . . . a life that inspired the books that will forever enable us to relive our glorious frontier heritage.

An Elegant Defense Feb 03 2021 National Bestseller "A valuable read that will help you understand what it takes to stop COVID-19. ... A super interesting look at the science of immunity." —Bill Gates, Gates Notes Summer Reading List The Pulitzer Prize-winning New York Times journalist "explicates for the lay reader the intricate biology of our immune system" (Jerome Groopman, MD, New York Review of Books) From New York Times science journalist Matt Richtel, *An Elegant Defense* is an acclaimed and definitive exploration of the immune system and the secrets of health. Interweaving cutting-edge science with the intimate stories of four individual patients, this epic, first-of-its-kind book "give[s] lay readers a means of understanding what's known so far about the intricate biology of our immune systems" (The Week). The immune system is our body's essential defense network, a guardian vigilantly fighting illness, healing wounds, maintaining order and balance, and keeping us alive. It has been honed by evolution over millennia to face an almost infinite array of threats. For all its astonishing complexity, however, the immune system can be easily compromised by fatigue, stress, toxins, advanced age, and poor nutrition—hallmarks of modern life—and even by excessive hygiene. Paradoxically, it is a fragile wonder weapon that can turn on our own bodies with startling results, leading today to epidemic levels of autoimmune disorders. *An Elegant Defense* effortlessly guides readers on a scientific detective tale winding from the Black Plague to twentieth-century breakthroughs in vaccination and antibiotics, to today's laboratories that are revolutionizing immunology—perhaps the most extraordinary and consequential medical story of our time. Drawing on extensive new interviews with dozens of world-renowned scientists, Richtel has produced a landmark book, equally an investigation

into the deepest riddles of survival and a profoundly human tale that is movingly brought to life through the eyes of his four main characters, each of whom illuminates an essential facet of our “elegant defense.”

A Deadly Wandering Nov 24 2022 From Pulitzer Prize-winning journalist Matt Richtel, a brilliant, narrative-driven exploration of technology’s vast influence on the human mind and society, dramatically-told through the lens of a tragic “texting-while-driving” car crash that claimed the lives of two rocket scientists in 2006. Richtel follows Reggie through the tragedy, the police investigation, his prosecution, and ultimately, his redemption. In the wake of his experience, Reggie has become a leading advocate against “distracted driving.” Richtel interweaves Reggie’s story with cutting-edge scientific findings regarding human attention and the impact of technology on our brains, proposing solid, practical, and actionable solutions to help manage this crisis individually and as a society. A propulsive read filled with fascinating, accessible detail, riveting narrative tension, and emotional depth, *A Deadly Wandering* explores one of the biggest questions of our time—what is all of our technology doing to us?—and provides unsettling and important answers and information we all need.

The Name of this Book Is Secret Mar 04 2021 Read the series that's sold more than 2 million copies--if you dare! Warning: this description has not been authorized by Pseudonymous Bosch. As much as he'd love to sing the praises of his book (he is very vain), he wouldn't want you to hear about his brave 11-year old heroes, Cass and Max-Ernest. Or about how a mysterious box of vials, the *Symphony of Smells*, sends them on the trail of a magician who has vanished under strange (and stinky) circumstances. And he certainly wouldn't want you to know about the hair-raising adventures that follow and the nefarious villains they face. You see, not only is the name of this book secret, the story inside is, too. For it concerns a secret. A Big Secret.

The Wandering Lake May 26 2020 The lake of Lop Nur, the "Heart of the heart of Asia," is one of the world's strangest phenomena. Situated in the wild Chinese province of Xinjiang, Lop Nur - "The wandering lake"- has for millennia been in a perpetual state of flux, drifting north to south, often tens of kilometres in as many years. It was once the lifeblood of the great Silk Road kingdom of Loulan, which flourished in this otherwise barren region 2,000 years ago and its peculiar movements confused even Ptolemy, who marked the lake twice on his map of Asia. Sven Hedin became captivated by the Lop Nur's peripatetic movements and for forty years his destiny was inextricably linked with that of this mysterious lake and the region surrounding it. His last journey to Lop Nur was in 1934. Travelling the length of the Konche-daria and Kum-daria rivers by canoe, Hedin embarked on his last Central Asian expedition and proved what he had always suspected - that Lop Nur did indeed shift position - and why. When he camped on its vast banks at night, Lop Nur was deep and full. Today, this once great lake - a a mighty reservoir in the desert - is nothing but windblown sand and salty marsh. The third in Sven Hedin's Central Asia trilogy, *The Wandering Lake* is a gripping story of adventure and discovery but it is also a rare account of a now-vanished world; a masterpiece by one of history's last great explorers.

Wandering in Strange Lands Jul 08 2021 One of *TIME*'s 100 Must Read Books of 2020 and one of *Good Housekeeping*'s Best Books of the Year Named one of the most anticipated books of the year by *ELLE*, *Buzzfeed*, *Esquire*, *Bitch Media*, *Good Housekeeping*, *Electric Literature*, *Parade* and *BookRiot* “One of the smartest young writers of her generation.”—*Book Riot* From the acclaimed cultural critic and New York Times bestselling author of *This Will Be My Undoing*—a writer whom Roxane Gay has hailed as “a force to be reckoned with”—comes this powerful story of her journey to understand her northern and southern roots, the Great Migration, and the displacement of black people across America. Between 1916 and 1970, six million black Americans left their rural homes in the South for jobs in cities in the North, West, and Midwest in a movement known as The Great Migration. But while this event transformed the complexion of America and provided black people with new economic opportunities, it also disconnected them from their roots, their land, and their sense of identity, argues Morgan Jerkins. In this fascinating and deeply personal exploration, she recreates her ancestors' journeys across America, following the migratory routes they took from Georgia and South Carolina to Louisiana, Oklahoma, and California. Following in their footsteps, Jerkins seeks to understand not only her own past, but

the lineage of an entire group of people who have been displaced, disenfranchised, and disrespected throughout our history. Through interviews, photos, and hundreds of pages of transcription, Jerkins braids the loose threads of her family's oral histories, which she was able to trace back 300 years, with the insights and recollections of black people she met along the way—the tissue of black myths, customs, and blood that connect the bones of American history. Incisive and illuminating, *Wandering in Strange Lands* is a timely and enthralling look at America's past and present, one family's legacy, and a young black woman's life, filtered through her sharp and curious eyes.

Wandering, Not Lost Sep 22 2022 A spiritual journey may take many forms, from Dante's descent to the pits of Hell and up the other side to the bliss of Paradise, to Pilgrim's progress (or even to Billy Pilgrim, unstuck in time in Vonnegut's *Slaughterhouse-Five*). It could be Elijah running headlong into the desert, or Jonah being flung ashore and shouting in Nineveh, a petulant prophet to the end. Faith can be carried like pennies in the pocket or worn like a coat of many colors. Abraham and Moses, Mary and Peter—all of them carried their faith, and all of them had their doubts. Doubt is the companion of faith, and the mystery that bonds them together comes out in stories. These are stories of faith, doubt, and mystery. Not all who wander are lost.

Odd Partners Oct 19 2019 Unlikely pairs join forces to crack a slew of intriguing cases in an anthology edited by New York Times bestselling author Anne Perry, featuring original stories by Jacqueline Winspear, Jeffery Deaver, Allison Brennan, Charles Todd, and many more, including Perry herself. Throughout the annals of fiction, there have been many celebrated detective teams: Sherlock Holmes and John Watson. Nick and Nora Charles. Hercule Poirot and Arthur Hastings. Thomas and Charlotte Pitt. That last pair is the creation of beloved mystery writer Anne Perry, who, as the editor of *Odd Partners* and in conjunction with *Mystery Writers of America*, has enlisted some of today's best mystery writers to craft all-new stories about unlikely duos who join forces—sometimes unwillingly—to solve beguiling

whodunits. From Perry's own entry, in which an English sergeant and his German counterpart set out to find a missing soldier during World War I, to a psychological tale of an airplane passenger who wakes up unsure of who he is and must enlist his fellow passengers to help him remember, to a historical mystery about a misguided witch-hunt and the unlikely couple that brings it down, each story deals in the wonderful complexities of human interactions. And not just human interactions: Honey bees avenge the death of their beekeeper, a wandering cat brings home clues to a murder, and a gray wolf and a fly fisherman in the Minnesota woods try to protect their land from a brash billionaire.
