*Details for passive houses* Oct 11 2019 This updated and expanded edition, Details for Passive Houses, includes 100 standard cross-sections that now conform to passive house standards as well as up-to-date ecological evaluations. Planners, architects, and engineers

will find reliable construction details for the passive house standard, criteria for the proof of ecologically optimized planning, and important information on the latest building materials. Details for Passive Houses is an essential work of reference for students and architectural professionals.

## **Accounting Information Systems**

**Australasian Edition** Dec 17 2022 At last - the Australasian edition of Romney and Steinbart's respected AIS text! Accounting Information Systems first Australasian edition offers the most up-to-date, comprehensive and student-friendly coverage of Accounting Information Systems in Australia, New Zealand and Asia. Accounting Information Systems has been extensively revised and updated to incorporate local laws, standards and business practices. The text has a new and flexible structure developed especially for Australasian AIS courses, while also retaining the features that make the US edition easy to use. nt concepts such as systems cycles, controls, auditing, fraud and cybercrime, ethics and the REA data model are brought to life by a wide

variety of Australasian case studies and examples. With a learning and teaching resource package second to none, this is the perfect resource for one-semester undergraduate and graduate courses in Accounting Information Systems.

**Maps and Related Cartographic Materials** May 30 2021 Make maps and other cartographic materials more easily accessible and usable! Maps and Related Cartographic Materials: Cataloging, Classification, and Bibliographic Control is a format-focused reference manual for catalogers that should occupy a prominent place on your reference shelf. Outside of standard cartographic cataloging tools, the bibliographic treatment of all forms of cartographic materials has never been compiled into one useful source. This book separately examines the treatment of all major cartographic format types and outlines the way each should be cataloged. With Maps and Related Cartographic Materials: Cataloging, Classification, and Bibliographic Control, you will learn to catalog the major formats of cartographic materials, including: sheet maps early and contemporary atlases remote-sensed images such as aerial photographs and satellite images globes geologic sections digital material

items on CD-ROM Although it is primarily aimed at the beginning "maps cataloger," Maps and Related Cartographic Materials: Cataloging, Classification, and Bibliographic Control will also be very helpful to the experienced cataloger who has not yet attempted to catalog, say, maps on CD-ROM. In each chapter, the experience and expertise of an established map cataloger or map librarian is the main source of information, giving you practical and up-to-date advice.

*International Corporate Governance* Jun 11 2022 Advances in Financial Economics, volume 18, will present research on corporate governance both in the US and globally. The volume will aim at providing a deeper understanding of corporate governance practices, trends, innovations and challenges using international data.

*Index and Description of Army Training Devices* Jan 18 2023

*Cataract Surgery* Mar 16 2020 Presents advances in phacoemulsification instruments and techniques; covers a full range of key topics including anesthesia, management of pediatric cataracts, intraocular lenses, and lasers; reflects knowledge in pathogenesis and biochemistry; and discusses the use of sutures and suture materials in complex secondary interventions.

**1968 Shelby Mustang GT350, GT500 and GT500KR** Jul 20 2020 There were Mustangs, and then there were Mustangs. Ford wanted its

new little Pony Car to appeal to the masses, and in executing that plan, the Mustang could be had in anything from a plain-Jane version with an economical 6-cylinder engine (often referred to as a "secretary's car"), all the way up to the sporty GT models with optional 271-hp V-8s. Unfortunately, although road-going Mustangs were considered sporty, they were not officially sports cars, at least according to the Sports Car Club of America (SCCA). And Lee Iacocca knew that on-track performance led to showroom performance, so he needed to go racing. Enter Carroll Shelby. Shelby worked with the SCCA to modify the Mustang to meet the SCCA's requirements and enter the racing arena. The result was the now-legendary Shelby Mustang. This volume of CarTech's In Detail series covers the 1968 Shelby GT350, GT500, and GT500KR. In 1968, Ford sought to take over much of the process of producing Shelby Mustangs and increased that production dramatically to meet anticipated sales demand, so it was a bit of a transition year. In an effort to appeal to muscle car fans rather than race fans, the cars were losing their edgy race car feel and were becoming more high-end performance road cars with a long list of performance and comfort options including 428 Cobra Jet Engines, automatic transmissions, and air conditioning. They may have no longer been sports cars, but they were now fantastic muscle cars. As in all In Detail Series books, you get an introduction and historical overview, an explanation of the design and concepts involved

in creating the car, a look at marketing and promotion, and an in-depth study of all hardware and available options, as well as an examination of where the car is on the market today. Also included is an appendix of paint and option codes, VIN and build tag decoders, as well as production numbers.

Photoshop CS3 Bible Dec 05 2021 Get the book you need to succeed in any Photoshop endeavor

-- Photoshop CS3 Bible. In this totally updated edition to the international bestseller, the authors show you how to master every aspect of Photoshop -- from image-editing basics to new techniques for working with camera raw images. You'll learn how to retouch, color correct, manipulate, and combine images using Photoshop. You'll discover how to create cutting-edge special effects for digital or film-based images, and use them on the Web or in print. And you'll find out how to use the File Browser, histogram palette, Lens Blur, Match Color, the color replacement tool, customizable keyboard shortcuts, and more. The authors' easy and approachable writing style demystifies even the most complex Photoshop tasks. Order today and master Photoshop CS3. Note: CD-ROM/DVD and other supplementary materials are not included as part of eBook file.

Experimental Panel Flutter Results for Some

Flat and Curved Titanium Skin Panels at

Supersonic Speeds Sep 14 2022 The results of

tests at Mach numbers from 1.72 to 2.62 on panels having a thickness from 0.015 to 0.045 inch, length-width ratio from 0.36 to 2.76, and radius-thickness ratio from 600 to infinity are presented. These results indicate a strong influence of differential pressure, which caused buckling on the flutter mode and on the dynamic pressure flutter for the curved panels. Results for both the flat and curved panel 5 fall within an extrapolation of an existing experimental panel flutter boundary.

An Engraved Landscape: Rock carvings in the

Wadi al-Ajal, Libya Oct 15 2022 An Engraved Landscape is a contextual analysis of a substantial new corpus of engravings from the Wadi al-Ajal, situated in the Central Saharan region of south west Libya. The wadi is renowned as the heartland of the Garamantian civilization, which emerged from local mobile Pastoral communities in the 1st millennium BC, and dominated trans-Saharan trade and politics for over a thousand years. Extensive archaeological and palaeoenvironmental investigations in recent years have provided

detailed insight into the later prehistory and protohistory of the wadi and surrounding areas. However, prior to the fieldwork detailed in this work, only a handful of carvings had been recorded in the wadi. This work is based on systematic survey, conducted between 2004 and 2009, which recorded around 2,500 previously unknown or unpublished engraved and inscribed rock surfaces. All forms of engraving, whether figurative or surface markings, were viewed as significant residues of human interaction with the rock surface and were recorded. The resulting database provides an opportunity to analyze the engravings in relation to their changing physical and cultural contexts, and the discussion offers a fresh interpretation of Saharan rock art based on this substantial new evidence. An Engraved Landscape also captures in detail a unique heritage resource that is currently inaccessible and threatened. This record of the fragile engravings provides an important source of information for researchers and students.

#### **Cataloging of Audiovisual Materials and Other Special Materials** Apr 28 2021

Cataloging of Audiovisual Materials and Other Special Materials covers both cataloging and MARC coding and tagging for all kinds of

special materials in all types of libraries. Types of material include videos, talking books, CD-ROMs, interactive multimedia, Internet resources, maps, all kinds of graphic materials, as well as toys, games, and kits. Book jacket. *Description and Engineering Characteristics of Eleven New High-temperature Alloys* Dec 25 2020 The Memorandum contains a description and summary of preliminary properties of eleven new alloys that are considered to be promising high-temperature materials. Most of them are in the experimental-application stage of their development; however, a few have reached the point where they can be considered commercial. Included are six nickel-base alloys, two iron-base alloys, one iron-nickel-base alloy, one cobalt base alloy, and one multicomponent alloy that contains primarily nickel and chromium. Following descriptions of composition and microstructure of each alloy, a large section of the memorandum is concerned with physical and mechanical properties, predominantly stress-rupture and creep properties. Oxidation and sulfidation as well as elevated temperature stability of the alloys is discussed. Information on processing and availability of the alloys is also given. (Author).
