**Buzz** Mar 31 2021 Characterized by grandiose song-and-dance numbers featuring ornate geometric patterns and mimicked in many modern films, Busby Berkeley's unique artistry is as recognizable and striking as ever. From his years on Broadway to the director's chair, Berkeley is notorious for his inventiveness and signature style. Through sensational films like

42nd Street (1933), Gold Diggers of 1933 (1933), Footlight Parade (1933), and Dames (1934), Berkeley sought to distract audiences from the troubles of the Great Depression. Although his bold technique is familiar to millions of moviegoers, Berkeley's life remains a mystery. *Buzz: The Life and Art of Busby Berkeley* is a telling portrait of the filmmaker who revolutionized the musical and changed the world of choreography. Berkeley pioneered many conventions still in use today, including the famous "parade of faces" technique, which lends an identity to each anonymous performer in a close-up. Carefully arranging dancers in complex and beautiful formations, Berkeley captured perspectives never seen before. Jeffrey Spivak's meticulous research magnifies the career and personal life of this beloved filmmaker. Employing personal letters, interviews, studio memoranda, and Berkeley's private memoirs, Spivak unveils the colorful life of one of cinema's greatest artists.

*The Anatomy of Buzz* Jun 02 2021 A groundbreaking guide to creating the word-of-mouth magic that cuts through the skepticism and information overload of today's consumers, and drives sales-and profits-to new heights. What turns a "sleeper" into a box-office bonanza or catapults a just-released book to the top of bestseller lists? How do people decide which car to buy, which fashions fit the image they seek, and even which movie to see? Despite the daily

assault of advertising and other traditional marketing strategies, statistics show that consumers are overwhelmingly persuaded by word of mouth-the recommendations of friends and the "buzz" that develops in the marketplace. As Newsweek recently proclaimed, "Buzz greases the great conveyor belt of culture and commerce, moving everything from movies to fashions of the body and mind faster and faster." In *The Anatomy of Buzz*, former marketing VP Emanuel Rosen pinpoints the products and services that benefit the most from buzz-a universe that embraces everything from high-tech equipment to books, various consumer and entertainment products to legal and other support services-and offers specific strategies for creating and sustaining effective word-of-mouth campaigns. Drawing from interviews with more than 150 executives, marketing leaders, and researchers who have successfully built buzz for major brands, Rosen describes the ins and outs of attracting the attention of influential first users and "big-mouth" movers and shakers. He also discusses proven techniques for stimulating customer-to-customer selling-including how companies can spread the word to new territories by taking advantage of customer hubs and networks on the Internet and

elsewhere. Recent surveys show that 58 percent of young people rely to some extent on others when selecting a car, 53 percent of moviegoers follow the recommendations of friends, and 65 percent of the people who bought a Palm organizer were inspired by the enthusiasm of others. With *The Anatomy of Buzz*, business leaders have what they need to start the buzz and reignite excitement about a product or service stalled in a holding pattern, or launch a new product into the stratosphere.

**What's the Buzz?** Jan 29 2021 Some children and young adolescents find it much harder to learn and flexibly use social skills. They can struggle with making friends, joining in, reading others' feelings, bouncing back constructively following an upset, coping with put-downs or just dealing appropriately with day to day frustrations. "What's the Buzz?" is an easy-to-implement, 16 lesson play-based social skills training program that will improve student confidence, relationships and reduce conflict. Written for teachers who support children and adolescents who may struggle with life for a variety of reasons, this book will help them to: expand their socialisation skills, for example, 'how-to' meet people and be friendly, gain attention in positive

ways, follow instructions, give compliments and maintain conversations; understand their feelings and develop an emotional resiliency to better cope with the inevitable emotional highs and lows life offers; learn 'how-to' read the feelings of others and appropriately respond to their needs; value positive thinking, for example, how-to stay calm under pressure, deal with worry, handle disappointment and best respond to put-downs and bullying; and, participate in play-based activities and games, so that they acquire skills incidentally. Designed for use in schools by teachers, school counsellors, special needs co-ordinators, teaching assistants, parents and allied health professionals, the role plays, games and team building activities presented in each lesson will help to build class unity and cohesion, whilst the template format allows students to experience success, feel confident and be ready to develop more complex skills.

Buzz Feb 22 2023 How to master the power of buzz Trendspotters and bestselling authors Marian Salzman and Ira Matathia demystify buzz and show how marketers can create and leverage it for the success of their products and services. The world we inhabit is in constant flux, and the captive audience on which advertisers relied for years no longer exists. Branding today requires a flexibility and creativity that have thus far eluded many traditional practitioners. When there is no clear forum for communicating your brand message to the audience, you must have your audience do it for you. The authors show how and why buzz works, examining case studies like Kate Spade, Madonna, Bulgari, Ford, Nokia, and French Connection. They explore the role specific consumer groups play in setting trends, show how influence works, reveal the efficacy of shock ads, and explain how to manage brand momentum. This book is a dynamic guide that sheds new light on the topic of buzz using real-world examples and case studies that show how marketers can manufacture the seemingly authentic word-of-mouth to which today's cynical

consumer responds.

Buzz Nov 07 2021 The Great Depression was defined by poverty and despair, but visionary American filmmaker Busby Berkeley (1895-1976) managed to divert the public's attention away from the economic crash with some of the most iconic movies of all time. Known for his kaleidoscopic dance numbers featuring multitudes of performers in extravagant costumes, his musicals provided a brief respite for an audience whose reality was hard and bitter. Buzz: The Life and Art of Busby Berkeley is a revealing study of the director, drawing from interviews with his colleagues, newspaper and legal records, and Berkeley's own unpublished memoirs to uncover the life of a Hollywood legend renowned for his talent and creativity. Jeffrey Spivak examines how Berkeley's career evolved from creating musical numbers for other directors in films such as *42nd Street* (1933) and *Gold Diggers of 1933* (1933) to directing his own pictures, such as *Strike up the Band* (1940) and *The Gang's All Here* (1943). Though Berkeley claimed he was no choreographer, his movies revitalized the public's waning interest in musical

pictures. While other popular filmmakers advertised their works specifically as nonmusical, Berkeley embraced his niche, eventually becoming the premier dance director of his time. However, the happy face Berkeley presented publicly did not necessarily reflect his life. Offstage and away from the set, the director met with scandal, and his fondness for liquor and women was well known. In September 1935, he was involved in a car accident that left three people dead and four others severely injured. Accused of driving under the influence, he was put on trial for second-degree murder. The accident significantly changed the nature of his stardom.

*Buzz* Nov 19 2022 As seen on PBS's American Spring LIVE, the award-winning author of *The Triumph of Seeds and Feathers* presents a natural and cultural history of bees: the buzzing wee beasties that make the world go round. Bees are like oxygen: ubiquitous, essential, and, for the most part, unseen. While we might overlook them, they lie at the heart of relationships that bind the human and natural worlds. In *Buzz*, the beloved Thor Hanson takes us on a journey that begins 125 million years ago, when a wasp first dared to feed pollen to its young. From

honeybees and bumbles to lesser-known diggers, miners, leafcutters, and masons, bees have long been central to our harvests, our mythologies, and our very existence. They've given us sweetness and light, the beauty of flowers, and as much as a third of the foodstuffs we eat. And, alarmingly, they are at risk of disappearing. As informative and enchanting as the waggle dance of a honeybee, *Buzz* shows us why all bees are wonders to celebrate and protect. Read this book and you'll never overlook them again.
