Black – white test score gaps form in early childhood and widen over elementary school. Sociologists have debated the roles that socioeconomic status (SES) and school quality play in explaining these patterns. In this study, I replicate and extend past research using new nationally representative data from the Early Childhood Longitudinal Study – Kindergarten Class of 2010 – 2011. I find black – white test score gaps at kindergarten entry in 2010 in reading (SD = .32), math (SD = .54), and working memory (SD = .52 among children with valid scores). Math and reading gaps widened by approximately .06 standard deviations over kindergarten, but the working memory gap was constant. Multivariate regressions show that student SES explained the reading gap at school entry, but gap decompositions suggest that school quality differences were responsible for the widening of the reading gap over kindergarten. SES explained much of the math gap at school entry, but the widening of the math gap could not be explained by SES, school quality, or other hypotheses. A complete toolkit for assessing kindergarten students' progress in language arts and math. Simple, ready-to-go evaluation sheets follow a month-by-month learning-expectations grid to ensure that all kindergarten learning objectives are covered. Support materials include record-keeping forms to keep assessment data organized and send-home learning activities to reinforce targeted skills. For use with Grade K. This is an assessment to determine the content knowledge of incoming students when they're entering kindergarten and assess at the end of the year. I usually give this assessment during the first and last week of school. I use the data to help guide and plan my beginning of the year lesson plans and to see if students have mastered standards required to progress to first grade. This data is also shown to my students' parents during our first and last parent-teacher conference of the year. It is filed in student's folder to track growth. I do not expect students to make a perfect score. I simply use this assessment to see where each of students are at learning skills or to see if each student mastered standards at the end of the year. I hope you will find it as useful as I have. I personally use this as a beginning and of the year assessment in kindergarten, but it can also be used as an end of the year Pre-K assessment or beginning of first grade. This assessment was created for the kindergarten teachers at my school. So this assessment may or may not work for you. Please look at the skills assessed to help you determine whether this assessment will be beneficial to you. Skills this eBook Assess: Writes name Identifies and read colors Identifies shapes Counts to and backwards Skip count by 2s,5s,10s Identifies numbers 1-100 Reads numbers words 1-10 Ordinal numbers Can touch and count objects to 10 Identifies capital letters Identifies lowercase letters Identifies letter sounds Identify words that rhyme List Calendar Blending and Segmented Phonemes Writes a complete sentence Sight words Sound deletion Substitution beginning and end and more... The CogAT (r) (Cognitive Abilities Test (r)) is given in

conjunction with the Iowa Assessments, Form E to provide an Ability Profile score that indicates both the level and pattern of a student's ability. These tests can be used to determine eligibility for Gifted and Talented programs. The Level 5/6 test is given to students in Kindergarten. Contact your school for more information about requirements for admission into the Gifted and Talented program at your school. The CogAT(r), Form 7 test was designed so that students who speak any language could be tested. Each session can be completed regardless of native language because all the questions use pictures only. The sentence completion section is optional and can be read to the students in either English or Spanish.

Karen Quinn has successfully taught hundreds of parents how to prepare their children for testing, and Testing For Kindergarten is her ultimate, comprehensive guide to having fun while teaching to the underlying abilities every test assesses. Whether your child is going to a private kindergarten or a public school, he or she will most likely be tested—and placed in classrooms according to those results. But information about intelligence tests is closely guarded, and it can be difficult to understand what your kids need to know. As an expert who has successfully taught hundreds of parents how to work with their own children, Karen Quinn has written the ultimate guide to preparing your child for kindergarten testing. The activities she suggests are not about “ teaching to the test. ” They are about having fun while teaching to the underlying abilities every test assesses. From the “ right ” way to have a conversation to natural ways to bring out your child ’ s inner math geek, Quinn shares the techniques that every parent can do with their kids to give them the best chance to succeed in school and beyond. It ’ s just good parenting—and better test scores are icing on the cake.
