All steps are fully illustrated with diagrams and full color photos. A refresher is given on traditional peyote stitch, however the designs can also be worked in two-needle peyote stitch or brick stitch if you prefer. The backs of the flowers are relatively flat so that they can be used in many applications including wearable art and decor. All the flowers in the book are original patterns not previously published elsewhere. They are not generated by computer software. The patterns are approximately life size and are designed for size 11/0 rocailles (round seed beads) with a few 15/0 rocailles added to get the correct curves and shaping. They could also be made in larger or smaller sizes by using 8/0 or 15/0 rocailles. The designs strive for as much realism as possible given the limitations of working with size 11/0 rocailles! Patterns use from three to seven colors. This book is not intended for the beginner who has never done any peyote stitch, however a chapter is included with instructions on doing all the techniques in the book as well as advise on selecting beads and thread, keeping tight tension, and other useful information. *Beading Inspiration: How to Use Color in Jewelry Design* is packed with new and traditional approaches to designing with color that will expand any beader's current palette as well as increase creative confidence. The patterns are a combination of engineering and bead artistry but the engineering is done for you so you get the fun of watching your flowers bloom one bead at a time. So for Victoria and all the other flower-loving bead artists around the world, this one's for you! The flowers in this book are three dimensional, complete on all sides including stems, bracts, and some leaves. They can also be made without the stems for a flatter application. Flowers include Purple Passion Flower, Carnation, Blue Aster, Gaillardia (also called Blanket Flowers), Bright Lights variety of Cosmos, Nasturtium, Lilac, Seashell Cosmos in either single color or bi-color, Columbine, and Snap Dragon. All flowers are shown on the back cover or look inside for the Table of Contents. The designs have detailed instructions and are fully illustrated with over 300 color photographs and diagrams. All designs are original and have not been previously published in any other venue. All flowers are approximately life size when made with size 11/0 round seed beads. Size 15/0 round seed beads are also used for shaping, to smooth edges, and for some of the more delicate parts where 11/0 are just too big. A good light and a magnifier help a lot with the smaller details if needed. Or if you just can't work with tiny beads you could replace the 11/0 beads with 8/0 and the 15/0 with 11/0; you will just get bigger flowers. Glass beads can be heavy so wire is used as an armature in the stems and a few flower parts. A word of caution: this book is for the serious beader! If you love those magazine articles about making a necklace this afternoon and wearing it out for dinner, this book is not for you. You cannot start a bridal bouquet on Friday and have it ready for a Sunday wedding. That is not to say you must be an advanced beader. If you have some patience and can follow detailed directions, you can make these flowers. Basic peyote stitch instructions are NOT covered in this book. You need to know even and odd count, increasing and decreasing within rows and at the end of rows. This book was a labor of love; hope you like it. Several projects do not require any new yarn at all—instead projects such as the Felted Striped Tote or the Labyrinth Circle Rug are designed using up a skein's worth of leftovers from other projects. A guide to terms and techniques, a resource directory, and a bibliography are also included. Learn the art from designer Lauren Harpster in this new publication made specifically for beginners who've never touched beads or wire, but is also an excellent resource for experienced French Beading artists. This title is a hard copy of my Learn French Beading: Beginner Course video series on YouTube.

Instructions for accessing the videos are included inside the book (Videos will be available after Feb 29th). \*Part 1 is the "Getting Started" guide. Before making French Beaded Flowers it is very important to understand the materials needed to make them. This section explores tools, beads, wire, and other supplies in detail, though not all of them will be necessary for this course. \*Part 2 is the "Technique Guide", which contains six lessons that teach the techniques included in this course - Continuous Loops, Continuous Crossover Loops, Continuous Wraparound Loops, Fringe, Basic Frame, and Lacing. These lessons are important for learning French Beading terms and abbreviations, and how to read French Beading patterns. I like to teach techniques separately from flower patterns because there's so much more I can teach you about an individual technique than what I can cover in a single flower pattern. There are also some variations of the techniques that are not used in the practice patterns, but are included for education and reference. This section is also intended to be a one-stop technique reference so you can quickly look up specific techniques while working with other flower patterns. Each lesson has a video demonstration so you can see the techniques in action, but they also contain picture and written instructions for the techniques. \*Part 3 contains four wildflower patterns that I've developed specifically for helping you practice the base techniques learned in Part 2 - Lavender, Dame's Rocket, Blue Virgin's Bower, and Black-Eyed Susan. The patterns have been written with beginners in mind and contain a high level of detail, so they're a great way to dip your toes into the art. This section is important for seeing practical application of the techniques, reinforcing the ability to read patterns, and learning how to assemble and shape a variety of flowers. I have also made video demonstrations of each of the flowers. While I demonstrate flower parts fully in the videos, I only show techniques as they are used in that particular flower. So you can start with Part 3 if you use the videos, but I do recommend that you go back through the lessons in Part 2. \*Part 4 will demonstrate how to arrange the flowers from Part 3 to make a wildflower arrangement. I am not a professional florist, but I'd like to share what I've learned about arranging beaded flowers. This section is included only in the book version of the course.
