This book is a comprehensive study of the nationalist movement and politics in Orissa during the 1920s. It examines the national movement in the late nineteenth century and the first two decades of the twentieth century prior to the launch of the Civil Disobedience Movement by focusing on the regional peculiarities, especially the Oriya linguistic and cultural identity movement. Based on extensive research, it reflects upon the emergence of a class of new intelligentsia as an opinion maker of the society, its concern for societal needs, the divergent trends within it, the commonalities and differences among them and the organizational linkages between the local intelligentsia and the nationalists. Despite the contradictions, the author argues that the local and national aspirations were not antagonistic but complemented each other, as witnessed during the Calcutta Congress of 1928, establishing the Indian National Congress? twin commitments on the question of regional identity and national liberation. National Movement and Politics in Orissa: 1920-29 is a valuable contribution to the discourse on the nationalist movement and will be of great interest to students and scholars of modern Indian history as well as to the social science academia. Book & DVD. This book is the first to describe in detail a community of potters working for the Jagannatha Temple in Puri, and to explore how the role of temple servant affects the potters' understanding of their work and of themselves. As a pilgrimage centre of national importance, supported by the patronage of successive regional dynasties and by fervent popular belief, the Jagannatha Temple requires earthenware in great quantities for the creation and distribution of the sacred food that is an integral feature of daily ritual and pilgrimage. This study observes the potters' technical prowess, sustained by devotion, but also examines the tensions within their relationships to more powerful temple servants and authorities. The accompanying DVD shows the artisans at work -- demonstrating their techniques, skills and products -- thereby adding value to the text. The book presents a comprehensive treatment of unemployment and economic problems in Jammu & Kashmir. Kashmir, being a conflict-ridden zone, has far less opportunities for employment than rest of the other states. With an underdeveloped industrial sector and the inability of government to create enough jobs, there seems to be no immediate solution. Lack of avenues to engage the youth in meaningful ways result in making miscreants out of many of them. Young populations across the world are generally seen as drivers of socio-economic growth, but in Kashmir, the youth bulge is a problem. Unemployed youths destabilize the economy by being used to create mayhem by the anti-social elements in the region. Underdevelopment and unemployment in Jammu & Kashmir is the manifestation of a mismatch between physical and human resources. This exists when a large segment of the working age population does not possess the appropriate skills and knowledge to be gainfully employed. In addition, lackadaisical and imprudent policies pursued by subsequent governments are the major challenge. A radical shift in its policies, especially in the education sector, is an absolute prerequisite for the birth of a capable workforce. The remedy lies in revamping the education sector by crafting appropriate policies for suitable skills in line with the socio-economic requirements of the society. The book argues the government must think about a long-term plan for unemployed youth and devise a policy to channel the youth bulge constructively. In the cases in which you appear it raises the standard of our judgments. Sri. S.N. Mulla, Senior Criminal Advocate Mr. Misra never clamoured for the front line.
