It's time to take control of your future! *Buy now the summary of this book for the modest price of a cup of coffee!

The Business of the 21st Century Oct 24 2020 In *The Business of the 21st Century*, Robert Kiyosaki explains the revolutionary business of network marketing in the context of what makes any business a success in any economic situation. This book lends credibility to multilevel marketing business, and justifies why it is an ideal avenue through which to learn basic business and sales skills... and earn money.

Rich Dad's Prophecy Feb 08 2022 When the generation known as 'Baby Boomers' begin to retire and cash in on their plans, there's a chance that this drain on reserves could cause a major devaluation in people's savings. This book offers a plan to help you prepare for the worst, offering alternative investments.

An Introduction to Statistical Learning Jul 21 2020 An Introduction to Statistical Learning provides an accessible overview of the field of statistical learning,

an essential toolset for making sense of the vast and complex data sets that have emerged in fields ranging from biology to finance to marketing to astrophysics in the past twenty years. This book presents some of the most important modeling and prediction techniques, along with relevant applications. Topics include linear regression, classification, resampling methods, shrinkage approaches, tree-based methods, support vector machines, clustering, and more. Color graphics and real-world examples are used to illustrate the methods presented. Since the goal of this textbook is to facilitate the use of these statistical learning techniques by practitioners in science, industry, and other fields, each chapter contains a tutorial on implementing the analyses and methods presented in R, an extremely popular open source statistical software platform. Two of the authors co-wrote *The Elements of Statistical Learning* (Hastie, Tibshirani and Friedman, 2nd edition 2009), a popular reference book for statistics and machine learning researchers. *An Introduction to Statistical Learning* covers many of the same topics, but at a level accessible to a much broader audience. This book is targeted at statisticians and non-statisticians alike who wish to use cutting-edge statistical learning techniques to analyze their data. The text assumes only a previous course in linear regression and no knowledge of matrix algebra.

The Life of Animals in Japanese Art Nov 12 2019 A sweeping exploration of animals in Japanese art and culture across sixteen centuries Few countries have devoted as much artistic energy to the depiction of animal life as Japan. Drawing upon the country's unique spiritual heritage, rich literary traditions, and currents in popular culture, Japanese artists have long expressed admiration for animals in sculpture, painting, lacquerwork, ceramics, metalwork, textiles, and woodblock prints. Real and fantastic creatures are meticulously and beautifully rendered, often with humor and whimsy. This beautiful book celebrates this diverse range of work, from ancient fifth-century clay sculpture to contemporary pieces. The catalog is organized into themes, including the twelve animals of the Japanese zodiac; animals in Shinto and Buddhism; animals and samurai; land animals, winged creatures, and creatures of the river and sea; and animals in works of humor and parody. Contributors address such issues as how animals are represented in Japanese folklore, myth, religion, poetry, literature, and drama; the practice of Japanese painting; and the relationship between Japanese painters and scientific study. Featuring some 300 masterpieces from public and private collections, many published for the first time, *The Life of Animals in Japanese Art* is a sumptuous celebration of the connections between the natural world and visual and creative expression. Published in association with the National Gallery of Art, Washington, DC Exhibition Schedule National Gallery of Art, Washington, DC May 5–July 28, 2019 Los Angeles County Museum of Art September 8–December 8, 2019

Infinite Returns Sep 15 2022 We are called to be architects of the future, not its victims." - R. BUCKMINSTER FULLER In *Infinite Returns*, Robert--with Kim and their top-notch team of Advisors--delves into how the economic and social climate of 2020 has set the stage for a decade of unprecedented challenges as well as opportunities. He draws on his study of Bucky Fuller for vision and guidance as well as noted economists in comparing and contrasting economic theories, and looks to the future, the decade ahead, through the lens of 'cosmic accounting.' Kiyosaki uses lessons from the past to envision the future and peppers that vision with doses of today's reality... while never losing sight of the power of optimism and the individual's power to affect change--in themselves and in our world. The book includes chapters from Kim, the Rich Dad Advisors, and the Rich Dad business team who offer insights on how to achieve infinite returns: Ken McElroy, Blair Singer, Garrett Sutton, Andy Tanner, Tom Wheelwright, Josh and Lisa Lannon, John MacGregor, Mona Gambetta, and Doctors Radha Gopalan and Nicole Srednicki.

Making Hard Decisions Oct 12 2019 This best-selling and up-to-date survey of decision analysis concepts and techniques is accessible to students with limited mathematical backgrounds. It is designed for advanced undergraduate and MBA-level courses in decision analysis and also for business courses in introductory quantitative methods. (Prerequisites: college algebra; introductory statistics.)

Give Back the Pain Dec 18 2022 Believing that we all suffer from at least some emotional wounds as a result of our past experiences, Dr. Robert Bleck set out to devise a recovery therapy to aid his clients in "coming to terms" with those past hurts. The result has come to be known as Source Completion Therapy (SCT). "To live a healthy and enriched life, our past emotional wounds-like bodily infections-must be cleansed and allowed to heal. Source Completion Therapy is designed to do just that." Dr. Bleck, Chapter 1 Incorporating all the effective, significant psychological theories widely in use today, SCT takes us on a journey of personal exploration and emotional healing built on the theory that we can only break free of the disabling effects of our hurts if we (first) become

fully aware of their true origins, (next) re-experience the trauma, and (finally) complete the healing process by confronting the source of the pain. The text is completed by an easy-to-use self-hypnosis script designed to bring on the state of relaxation necessary for reliving and re-experiencing the events that created our symptoms. Options for giving the pain back to its source (completing) are also offered.

How to Deal with Your Acting-Up Teenager May 11 2022 Offers parents practical advice on giving their teenagers responsibility, reinforcing good behavior, and standing up for parental rights.

The Business School for People who Like Helping People Mar 09 2022 "In this Second Edition of his bestselling book, Robert T. Kiyosaki updates and expands his original eight "hidden values" of a network marketing business (other than making money!) Special Bonus-three additional "hidden values" from Kim Kiyosaki and Sharon Lechter"--Page 4 of cover.

Giant in the Shadows Jan 15 2020 Although he was Abraham and Mary Lincoln's oldest and last surviving son, the details of Robert T. Lincoln's life are misunderstood by some and unknown to many others. Nearly half a century after the last biography about Abraham Lincoln's son was published, historian and author Jason Emerson illuminates the life of this remarkable man and his achievements in *Giant in the Shadows: The Life of Robert T. Lincoln*. Emerson, after nearly ten years of research, draws upon previously unavailable materials to offer the first truly definitive biography of the famous lawyer, businessman, and statesman who, much more than merely the son of America's most famous president, made his own indelible mark on one of the most progressive and dynamic eras in United States history. Born in a boardinghouse but passing his last days at ease on a lavish country estate, Robert Lincoln played many roles during his lifetime. As a president's son, a Union soldier, an ambassador to Great Britain, and a U.S. secretary of war, Lincoln was indisputably a titan of his age. Much like his father, he became one of the nation's most respected and influential men, building a successful law practice in the city of Chicago, serving shrewdly as president of the Pullman Car Company, and at one time even being considered as a candidate for the U.S. presidency. Along the way he bore witness to some of the most dramatic moments in America's history, including Robert E. Lee's surrender at Appomattox Courthouse; the advent of the railroad, telephone, electrical, and automobile industries; the circumstances surrounding the assassinations of three presidents of the United States; and the momentous presidential election of 1912. *Giant in the Shadows* also reveals Robert T. Lincoln's complex relationships with his famous parents and includes previously unpublished insights into their personalities. Emerson reveals new details about Robert's role as his father's confidant during the brutal years of the Civil War and his reaction to his father's murder; his prosecution of the thieves who attempted to steal his father's body in 1876 and the extraordinary measures he took to ensure it would never happen again; as well as details about the painful decision to have his mother committed to a mental facility. In addition Emerson explores the relationship between Robert and his children, and exposes the actual story of his stewardship of the Lincoln legacy—including what he and his wife really destroyed and what was preserved. Emerson also delves into the true reason Robert is not buried in the Lincoln tomb in Springfield but instead was interred at Arlington National Cemetery. Meticulously researched, full of never-before-seen photographs and new insight into historical events, *Giant in the Shadows* is the missing chapter of the Lincoln family story. Emerson's riveting work is more than simply a biography; it is a tale of American achievement in the Gilded Age and the endurance of the Lincoln legacy. Univeristy Press Books for Public and Secondary Schools 2013 edition Book of the Year by the Illinois State historical Society, 2013

The Five Life Decisions Aug 22 2020 Choices matter. And in your teens and twenties, some of the biggest life decisions come about when you feel the least prepared to tackle them. Economist Robert T. Michael won't tell you what to choose. Instead, he'll show you how to make smarter choices. Michael focuses on five critical decisions we all face about college, career, partners, health, and parenting. He uses these to demonstrate how the science of scarcity and choice—concepts used to guide major business decisions and shape national legislation—can offer a solid foundation for our own lives. Employing comparative advantage can have a big payoff when picking a job. Knowing how to work the marketplace can minimize uncertainty when choosing a partner. And understanding externalities—the ripple of results from our actions—can clarify the if and when of having children. Michael also brings in data from the National Longitudinal Survey of Youth, a scientific sample of 18 million millennials in the United States that tracks more than a decade of young adult choices and

consequences. As the survey's longtime principal investigator and project director, Michael shows that the aggregate decisions can help us understand what might lie ahead along many possible paths—offering readers insights about how their own choices may turn out. There's no singular formula for always making the right choice. But the adaptable framework and rich data at the heart of *The Five Life Decisions* will help you feel confident in whatever you decide.

Dinosaurs! Dec 26 2020 Looks at how paleontologists have learned about the characteristics of different dinosaurs through the study of fossils.

Unfair Advantage Feb 25 2021 True financial education is the path to creating the life you want for yourself and your family. Kiyosaki challenges people to change the one thing that is within your control: yourself. He demonstrates how real financial education gives you an unfair advantage, and delivers measurable results.

The Men We Became Mar 17 2020 For over twenty years Robert Littell was John F. Kennedy Jr.'s closest confidant. Now, in a beautiful and moving memoir, Littell introduces us to the private John. A story of laughter and sorrow, joy and heartbreak, *The Men We Became* is an unforgettable memoir. Rob Littell was a freshman at Brown when he met the young JFK, Jr. during orientation week. Although Littell came from a privileged background, it was worlds apart from the glamorous life of the son of the late President and Jacqueline Kennedy Onassis. Eager to be accepted on his own terms, Kennedy admired Littell's irreverence toward his celebrity and they became close friends. John opened up to Littell on a very personal level, revealing the complex and sometimes tense nature of his relationships with his sister and cousins, as well as his mother's extraordinary influence on John - and how they both worked to keep it from being overbearing. John's marriage had its ups and downs and Carolyn had made enemies of some of his friends, but she was in great shape mentally and physically and they were planning to have children. Littell recounts wonderful dinners at Jacqueline Onassis's apartment where she surprised him with his favorite dinner of specially burned hamburgers and weekends at her retreat in Martha's Vineyard where she critiqued their touch football while lying on a chaise lounge, her face covered in cold cream and cucumber slices. As students, Littell and Kennedy bummed around Europe. They slept in Hyde Park, sampled the pleasures of Amsterdam, ran afoul of customs officers and almost got busted at the Ritz Hotel for smoking pot. They even shared apartments in New York City until Jackie summoned them to dinner one day and gently suggested it was time to grow up. The two went on to pursue their professional lives. John trained as a lawyer - and Littell speaks of his friend's anguish at repeatedly failing the bar - and then he founded his own political magazine, which seemed only fitting because Kennedy yearned to live up to the family name and accepted that politics would be his destiny. Later on, Littell was a part of JFK, Jr.'s secret wedding to Carolyn Bessette on Cumberland Island, Georgia, and three years later a pallbearer at his funeral. From shared adventures, private moments and lasting memories, Robert Littell offers a unique look at John F. Kennedy Jr.'s life - one that has never been seen before.

The Real Book of Real Estate Aug 14 2022 From the #1 bestselling author of "Rich Dad, Poor Dad" comes the ultimate guide to real estate--the advice and techniques every investor needs to navigate through the ups, downs, and in-betweens of the market.

Caging Borders and Carceral States Nov 24 2020 This volume considers the interconnection of racial oppression in the U.S. South and West, presenting thirteen case studies that explore the ways in which citizens and migrants alike have been caged, detained, deported, and incarcerated, and what these practices tell us about state building, converging and coercive legal powers, and national sovereignty. As these studies depict the institutional development and state scaffolding of overlapping carceral regimes, they also consider how prisoners and immigrants resisted such oppression and violence by drawing on the transnational politics of human rights and liberation, transcending the isolation of incarceration, detention, deportation and the boundaries of domestic law. Contributors: Dan Berger, Ethan Blue, George T. Diaz, David Hernandez, Kelly Lytle Hernandez, Pippa Holloway, Volker Janssen, Talitha L. LeFlouria, Heather McCarty, Douglas K. Miller, Vivien Miller, Donna Murch, and Keramet Ann Reiter.

The Business School Mar 29 2021 In this third edition of his bestselling book, Robert T. Kiyosaki updates his original eight "hidden values" of a network marketing business (other than making money. Special Bonus: additional "hidden values" from Kim Kiyosaki, author of *Rich Woman* and *It's Rising Time!* Robert explains that building a network marketing business... is a revolutionary way to achieve wealth ...makes it possible for anyone to acquire great wealth... is and avenue to financial freedom that is open to anyone who has drive, determination and perseverance.

BE RICH AND HAPPY. May 19 2020

Rich Dad's Guide to Becoming Rich...Without Cutting Up Your Credit Cards Dec 06 2021 Why cutting up your credit cards won't make you rich A popular TV personality often says, "Take out your credit cards and cut them into pieces." While that is sound advice for people who are not financially responsible, it is inadequate advice for anyone who wants to become rich or financially free. In other words, just cutting up your credit cards will not make you rich. What does make you rich is financial education...unfortunately a type of education we do not receive in school. If a person has a solid financial education, they would know that there are two kinds of debt...good debt and bad debt. A person with a sound financial education would know how to use good debt to make them richer faster...much faster than a person who only saves money and has no debt. *Rich Dad's Guide to Becoming Rich* * Are you in credit card debt? * Is job security dead? * Is your financial security threatened? * Is a high-paying job the answer? * Is your money working for you? * Do you have good debt or bad debt? We all need more financial education. We need to know how to have our money work hard for us so we don't have to spend our lives working for money. That is why we need more sophisticated financial education...not oversimplified and childish financial tips such as cut up your credit cards or save more money. If you are ready to increase your financial education and enjoy your credit cards, then this book is for you.

Why a Students Work for C Students and Why B Students Work for the Government Apr 17 2020 Offers advice to parents on providing children with a financial headstart without giving them money, encouraging parents to focus less on their children's letter grades and more on helping them cultivate their passions.

Film and the Dream Screen May 31 2021 Robert T. Eberwein uses a hypothesis from psychoanalytic theory to explore the frequently noticed similarity between dreaming and watching a film. His comprehensive study of the relationship between films and dreams explains the film screen as a psychic structure. Originally published in 1984. The Princeton Legacy Library uses the latest print-on-demand technology to again make available previously out-of-print books from the distinguished backlist of Princeton University Press. These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions. The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905.

An Instinct for Truth Jan 07 2022 An exploration of the scientific mindset—such character virtues as curiosity, veracity, attentiveness, and humility to evidence—and its importance for science, democracy, and human flourishing. Exemplary scientists have a characteristic way of viewing the world and their work: their mindset and methods all aim at discovering truths about nature. In *An Instinct for Truth*, Robert Pennock explores this scientific mindset and argues that what Charles Darwin called “an instinct for truth, knowledge, and discovery” has a tacit moral structure—that it is important not only for scientific excellence and integrity but also for democracy and human flourishing. In an era of “post-truth,” the scientific drive to discover empirical truths has a special value. Taking a virtue-theoretic perspective, Pennock explores curiosity, veracity, skepticism, humility to evidence, and other scientific virtues and vices. He explains that curiosity is the most distinctive element of the scientific character, by which other norms are shaped; discusses the passionate nature of scientific attentiveness; and calls for science education not only to teach scientific findings and methods but also to nurture the scientific mindset and its core values. Drawing on historical sources as well as a sociological study of more than a thousand scientists, Pennock's philosophical account is grounded in values that scientists themselves recognize they should aspire to. Pennock argues that epistemic and ethical values are normatively interconnected, and that for science and society to flourish, we need not just a philosophy of science, but a philosophy of the scientist.

The Laws of Human Nature Feb 14 2020 SUMMARY: This book is If you've ever wondered about human behavior, wonder no more. In The Laws of Human Nature, Greene takes a look at 18 laws that reveal who we are and why we do the things we do. Humans are complex beings, but Greene uses these laws to strip human nature down to its bare bones. Every law that he presents is supported by a real-life historical account, with an insightful twist to drive the point home. As you read the book, don't be surprised if you get the feeling that everyone you know, including yourself, is described in the book! DISCLAIMER: This is an UNOFFICIAL summary and not the original book. It is designed to record all the key points of the original book.

Rich Dad's Before You Quit Your Job Jun 19 2020 The tenth book in the series provides firsthand accounts of the author's startup companies, what he learned from his successes and failures, and other topics a reader needs to know in order to start a company and quickly develop it.

Trauma and the Avoidant Client: Attachment-Based Strategies for Healing Nov 17 2022 Winner, 2011 Written Media Award, International Society for Study of Trauma & Dissociation. How to effectively engage traumatized clients, who avoid attachment, closeness, and painful feelings. A large segment of the therapy population consist of those who are in denial or retreat from their traumatic experiences. Here, drawing on attachment-based research, the author provides clinical techniques, specific intervention strategies, and practical advice for successfully addressing the often intractable issues of trauma. Trauma and the Avoidant Client will enhance the skills of all mental health practitioners and trauma workers, and will serve as a valuable, useful resource to facilitate change and progress in psychotherapy.

Midas Touch Apr 29 2021 Translation of: Midas touch: why some entrepreneurs get rich-- and why most don't.

Raptor Red Jan 19 2023 A pair of fierce but beautiful eyes look out from the undergrowth of conifers. She is an intelligent killer... So begins one of the most extraordinary novels you will ever read. The time is 120 million years ago, the place is the plains of prehistoric Utah, and the eyes belong to an unforgettable heroine. Her name is Raptor Red, and she is a female Raptor dinosaur. Painting a rich and colorful picture of a lush prehistoric world, leading paleontologist Robert T. Bakker tells his story from within Raptor Red's extraordinary mind, dramatizing his revolutionary theories in this exciting tale. From a tragic loss to the fierce struggle for survival to a daring migration to the Pacific Ocean to escape a deadly new predator, Raptor Red combines fact and fiction to capture for the first time the thoughts, emotions, and behaviors of the most magnificent, enigmatic creatures ever to walk the face of the earth.

We Are Not Slaves Jun 12 2022 Hank Lacayo Best Labor Themed Book, International Latino Book Awards Best Book Award, Division of Critical Criminology and Social Justice, American Society of Criminology In the early twentieth century, the brutality of southern prisons became a national scandal. Prisoners toiled in grueling, violent conditions while housed in crude dormitories on what were effectively slave plantations. This system persisted until the 1940s when, led by Texas, southern states adopted northern prison design reforms. Texas presented the reforms to the public as modern, efficient, and disciplined. Inside prisons, however, the transition to penitentiary cells only made the endemic violence more secretive, intensifying the labor division that privileged some prisoners with the power to accelerate state-orchestrated brutality and the internal sex trade. Reformers' efforts had only made things worse--now it was up to the prisoners to fight for change. Drawing from three decades of legal documents compiled by prisoners, Robert T. Chase narrates the struggle to change prison from within. Prisoners forged an alliance with the NAACP to contest the constitutionality of Texas prisons. Behind bars, a prisoner coalition of Chicano Movement and Black Power organizations publicized their deplorable conditions as "slaves of the state" and initiated a prison-made civil rights revolution and labor protest movement. These insurgents won epochal legal victories that declared conditions in many southern prisons to be cruel and unusual--but their movement was overwhelmed by the increasing militarization of the prison system and empowerment of white supremacist gangs that, together, declared war on prison organizers. Told from the vantage point of the prisoners themselves, this book weaves together untold but devastatingly important truths from the histories of labor, civil rights, and politics in the United States as it narrates the transition from prison plantations of the past to the mass incarceration of today.

Summary of Rich Dad, Poor Dad by Robert T. Kiyosaki Sep 03 2021 What the wealthy teach their children about financial independence. Rich Dad, Poor Dad (1997) is part memoir and part financial self-help book. Written by best-selling author, entrepreneur, and billionaire Robert T. Kiyosaki, Rich Dad, Poor Dad investigates the money management lessons that are taught only in upper-class homes. Kiyosaki uses his personal experience to explain why everyone

should learn these personal finance secrets that will help you cultivate and maintain wealth. Do you want more free book summaries like this? Trauma and the Struggle to Open Up: From Avoidance to Recovery and Growth Oct 16 2022 How to navigate the therapeutic relationship with trauma survivors, to help bring recovery and growth. In therapy, we see how relationships are central to many traumatic experiences, but relationships are also critical to trauma recovery. Grounded firmly in attachment and trauma theory, this book shows how to use the psychotherapy relationship, to help clients find self-understanding and healing from trauma. Offering candid, personal guidance, using rich case examples, Dr. Robert T. Muller provides the steps needed to build and maintain a strong therapist-client relationship –one that helps bring recovery and growth. With a host of practical tips and protocols, this book gives therapists a roadmap to effective trauma treatment.

Rich Dad, Poor Dad Feb 20 2023 Although we have been successful in our careers, they have not turned out quite as we expected. We both have changed positions several times-for all the right reasons-but there are no pension plans vesting on our behalf. Our retirement funds are growing only through our individual contributions. Michael and I have a wonderful marriage with three great children. As I write this, two are in college and one is just beginning high school. We have spent a fortune making sure our children have received the best education available. One day in 1996, one of my children came home disillusioned with school. He was bored and tired of studying. “Why should I put time into studying subjects I will never use in real life?” he protested. Without thinking, I responded, “Because if you don't get good grades, you won't get into college.” “Regardless of whether I go to college,” he replied, “I'm going to be rich.”

Sales Dogs Apr 10 2022 The number one skill for any entrepreneur or business owner is the ability to sell. Why? Because sales = income. Yet, many fail financially not because they do not have great ideas or even good work ethic, but typically because they don't know how to, refuse to, are afraid to, or don't think it is important to know how to sell. *SalesDogs* was written as the very first of the Rich Dad Poor Dad “how-to” Advisory series to teach in a very fun and impactful way how to overcome the fears, the myths and the obstacles to selling your products, services or yourself. It then teaches a simple, time-proven process of selling that will generate great income in most any business. The reader will learn the five most important selling skills to master, how to overcome any objection, manage a territory and much more. The book quickly de-bunks the idea that you have to be an overly aggressive “attack dog” to be successful. It uses the metaphor of “man's best friend” to say that a great sales person is like a loyal, persistent and lovable canine. It stipulates that there are five different “breeds” or personalities of *SalesDogs* that can each make a lot of money by playing to its strength. You will learn how to identify, maximize and train to that strength and also how to teach others on your team to do the same. While the book is fun and engaging, it also dives deep into the personal development issues that block a person's ability to generate income and how to overcome them. The book is perfect for first time salespeople, individuals who are uncomfortable with the notion of “selling”, those who need to train others to sell and those who want to simply get better quicker.

Rich Dad's Rich Kid, Smart Kid Sep 22 2020 This handbook for parents explains how to teach children the fundamental principles of finance, introducing problem-solving skills that help youngsters understand the importance of a good education and financial planning in their lives.

All the Light Here Comes from Above Jul 01 2021 EDWARD HITCHCOCK was not the only star in the firmament of American science and philosophy in the nineteenth century, but he was certainly one of the brightest. Raised among the wheat and rye fields of Deerfield, Massachusetts, he was expected to pursue a farmer's life, but early on he developed a "strong relish" for science. In his teens he adopted his father's orthodox Christian faith and began studying for the ministry. By age twenty-five he had set a dual path for his life, science and religion. Although Hitchcock's career as a pastor would be brief, preaching and spreading the Gospel would remain his highest calling. Nevertheless, his scientific impulses could never be denied, his spiritual life could not deflect him from

the pursuit of scientific truth. In that respect he was perhaps unique for his time - and for today - for he saw no conflict between science and religion. "When rightly interpreted and understood," he wrote, "they will appear in perfect unison." In *All the Light Here Comes from Above: The Life and Legacy of Edward Hitchcock*, Massachusetts author Robert T. McMaster brings Edward Hitchcock to life, revealing the humanity of the man with dignity, charm, and humor. Relying largely on Hitchcock's own words from his letters, notes, and other unpublished manuscripts, McMaster presents an intimate view of Edward Hitchcock, his scientific achievements, his theological writings, as well as his battles with powerful personal demons that threatened him at every turn.

Rich Dad's Conspiracy of the Rich Jan 27 2021 In late January, 2009, Robert Kiyosaki launched CONSPIRACY OF THE RICH - a free online book which was written in serial basis to help people understand how the current recession came about, and what they need to learn on how to survive through the coming rough years. An unprecedented publishing event for Kiyosaki and The Rich Dad Company, CONSPIRACY OF THE RICH is an interactive, "Wiki-style" project in which Kiyosaki has invited feedback, commentary, and questions from readers across the globe. The response so far has been totally fantastic. Millions and millions of readers have flocked to the website (www.conspiracyoftherich.com) to read what Robert has to say about the recession, and the readers have posted thousands of comments. Some of those reader comments will even be included in the final tradepaper version.

Bolívar's Afterlife in the Americas Jul 13 2022 Simón Bolívar is the preeminent symbol of Latin America and the subject of seemingly endless posthumous attention. Interpreted and reinterpreted in biographies, histories, political writings, speeches, and works of art and fiction, he has been a vehicle for public discourse for the past two centuries. Robert T. Conn follows the afterlives of Bolívar across the Americas, tracing his presence in a range of competing but interlocking national stories. How have historians, writers, statesmen, filmmakers, and institutions reworked his life and writings to make cultural and political claims? How has his legacy been interpreted in the countries whose territories he liberated, as well as in those where his importance is symbolic, such as the United States? In answering these questions, Conn illuminates the history of nation building and hemispheric globalism in the Americas.
