## **The Subtle Art of Not Giving**

**a F\*\*k** May 05 2021 #1 New York Times Bestseller Over 10 million copies sold In this generation-defining self-help guide, a superstar blogger cuts through the crap to show us how to stop trying to be "positive" all the time so that we can truly become better, happier people. For decades, we've been told that positive thinking is the key to a happy, rich life. "F\*\*k positivity," Mark Manson says. "Let's be honest, shit is f\*\*ked and we have to live with it." In his wildly popular Internet blog, Manson doesn't sugarcoat or equivocate. He tells it like it is—a dose of raw, refreshing, honest truth that is sorely lacking today. *The Subtle Art of Not Giving a F\*\*k* is his antidote to the coddling, let's-all-feel-good mindset that has infected American society and spoiled a generation, rewarding them with gold medals just for showing up. Manson makes the argument, backed both by academic research and well-timed poop jokes, that improving our lives

hinges not on our ability to turn lemons into lemonade, but on learning to stomach lemons better. Human beings are flawed and limited—"not everybody can be extraordinary, there are winners and losers in society, and some of it is not fair or your fault." Manson advises us to get to know our limitations and accept them. Once we embrace our fears, faults, and uncertainties, once we stop running and avoiding and start confronting painful truths, we can begin to find the courage, perseverance, honesty, responsibility, curiosity, and forgiveness we seek. There are only so many things we can give a f\*\*k about so we need to figure out which ones really matter, Manson makes clear. While money is nice, caring about what you do with your life is better, because true wealth is about experience. A much-needed grab-you-by-the-shoulders-and-look-you-in-the-eye moment of real-talk, filled with entertaining stories and profane, ruthless humor, *The Subtle Art of Not Giving a F\*\*k*

is a refreshing slap for a generation to help them lead contented, grounded lives. *Art of the Deal* Oct 10 2021 Art today is defined by its relationship to money as never before. Prices of living artists' works have been driven to unprecedented heights, conventional boundaries within the art world have collapsed, and artists now think ever more strategically about how to advance their careers. Artists no longer simply make art, but package, sell, and brand it. Noah Horowitz exposes the inner workings of the contemporary art market, explaining how this unique economy came to be, how it works, and where it's headed. He takes a unique look at the globalization of the art world and the changing face of the business, offering the clearest analysis yet of how investors speculate in the market and how emerging art forms such as video and installation have been drawn into the commercial sphere. By carefully examining these developments against the

backdrop of the deflation of the contemporary art bubble in 2008, "Art of the Deal" is a must-read book that demystifies collecting and investing in today's art market.

*The Art of Rivalry* Jan 01 2021  
Pulitzer Prize-winning art critic Sebastian Smee tells the fascinating story of four pairs of artists—Manet and Degas, Picasso and Matisse, Pollock and de Kooning, Freud and Bacon—whose fraught, competitive friendships spurred them to new creative

heights. Rivalry is at the heart of some of the most famous and fruitful relationships in history. *The Art of Rivalry* follows eight celebrated artists, each linked to a counterpart by friendship, admiration, envy, and ambition. All eight are household names today. But to achieve what they did, each needed the influence of a contemporary—one who was equally ambitious but possessed sharply contrasting strengths and weaknesses. Edouard Manet and Edgar Degas were close associates whose personal bond frayed after Degas painted a portrait of Manet and his wife. Henri Matisse and Pablo Picasso swapped paintings, ideas, and influences as they jostled for the support of collectors like Leo and Gertrude Stein and vied for the leadership of a new avant-garde. Jackson Pollock's uninhibited style of "action painting" triggered a breakthrough in the work of his older rival, Willem de Kooning. After Pollock's sudden death in a car crash, de Kooning assumed Pollock's mantle and became romantically involved

with his late friend's mistress. Lucian Freud and Francis Bacon met in the early 1950s, when Bacon was being hailed as Britain's most exciting new painter and Freud was working in relative obscurity. Their intense but asymmetrical friendship came to a head when Freud painted a portrait of Bacon, which was later stolen. Each of these relationships culminated in an early flashpoint, a rupture in a budding intimacy that was both a betrayal and a trigger for great innovation. Writing with the same exuberant wit and psychological insight that earned him a Pulitzer Prize for art criticism, Sebastian Smee explores here the way that coming into one's own as an artist—finding one's voice—almost always involves willfully breaking away from some intimate's expectations of who you are or ought to be. Praise for *The Art of Rivalry* "Gripping . . . Mr. Smee's skills as a critic are evident throughout. He is persuasive and vivid. . . . You leave this book both nourished and

hungry for more about the art, its creators and patrons, and the relationships that seed the ground for moments spent at the canvas."—*The New York Times* "With novella-like detail and incisiveness [Sebastian Smee] opens up the worlds of four pairs of renowned artists. . . . Each of his portraits is a biographical gem. . . . *The Art of Rivalry* is a pure, informative delight, written with canny authority."—*The Boston Globe*

*Trump: The Art of the Deal* Jul 07 2021 President Donald J. Trump lays out his professional and personal worldview in this classic work—a firsthand account of the rise of America’s foremost deal-maker. “I like thinking big. I always have. To me it’s very simple: If you’re going to be thinking anyway, you might as well think big.”—Donald J. Trump Here is Trump in action—how he runs his organization and how he runs his life—as he meets the people he needs to meet, chats with family and friends, clashes with enemies, and challenges conventional thinking. But even a maverick plays by rules, and Trump has formulated time-tested guidelines for success. He isolates the common elements in his greatest accomplishments; he shatters myths; he names names, spells out the zeros, and fully reveals the deal-maker’s art. And throughout, Trump talks—really talks—about how he does it. *Trump: The Art of the Deal* is an unguarded look at the mind of a brilliant

entrepreneur—the ultimate read for anyone interested in the man behind the spotlight. Praise for *Trump: The Art of the Deal* “Trump makes one believe for a moment in the American dream again.”—The New York Times “Donald Trump is a deal maker. He is a deal maker the way lions are carnivores and water is wet.”—Chicago Tribune “Fascinating . . . wholly absorbing . . . conveys Trump’s larger-than-life demeanor so vibrantly that the reader’s attention is instantly and fully claimed.”—Boston Herald “A chatty, generous, chutzpa-filled autobiography.”—New York Post

**The Art of Losing** Sep 09 2021 Winner of the Dublin Literary Award A Best Historical Novel of the Year at The New York Times Book Review “[An] extraordinary achievement.” —Liesl Schillinger, *The Wall Street Journal* Across three generations, three wars, two continents, and the mythic waters of the Mediterranean, one family’s history leads to an

inevitable question: What price do our descendants pay for the choices that we make? Naïma knows Algeria only by the artifacts she encounters in her grandparents' tiny apartment in Normandy: the language her grandmother speaks but Naïma can't understand, the food her grandmother cooks, and the precious things her grandmother carried when they fled. Naïma's father claims to remember nothing; he has made himself French. Her grandfather died before he could tell her his side of the story. But now Naïma will travel to Algeria to see for herself what was left behind—including their secrets. The Algerian War for Independence sent Naïma's grandfather on a journey of his own, from wealthy olive grove owner and respected veteran of the First World War, to refugee spurned as a harki by his fellow Algerians in the transit camps of southern France, to immigrant barely scratching out a living in the north. The long battle against colonial rule broke apart communities,

opened deep rifts within families, and saw the whims of those in even temporary power instantly overturn the lives of ordinary people. Where does Naïma's family fit into this history? How do they fit into France's future? Alice Zeniter's *The Art of Losing* is a powerful, moving family novel that spans three generations across seventy years and two shores of the Mediterranean Sea. It is a resonant people's history of Algeria and its diaspora. It is a story of how we carry on in the face of loss: loss of country, identity, language, connection. Most of all, it is an immersive, riveting excavation of the inescapable legacies of colonialism, immigration, family, and war.

*Art in the Age of Machine*

*Learning* Sep 28 2020 An

examination of machine learning art and its practice in new media art and music. Over the past decade, an artistic movement has emerged that draws on machine learning as both inspiration and medium. In this book, transdisciplinary artist-researcher Sofian Audry examines artistic practices at the intersection of machine learning and new media art, providing conceptual tools and historical perspectives for new media artists, musicians, composers, writers, curators, and theorists. Audry looks at works from a broad range of practices, including new media installation, robotic art, visual art, electronic music and sound, and electronic literature, connecting machine learning art to such earlier artistic practices as cybernetics art, artificial life art, and evolutionary art. Machine learning underlies computational systems that are

biologically inspired, statistically driven, agent-based networked entities that program themselves. Audry explains the fundamental design of machine learning algorithmic structures in terms accessible to the nonspecialist while framing these technologies within larger historical and conceptual spaces. Audry debunks myths about machine learning art, including the ideas that machine learning can create art without artists and that machine learning will soon bring about superhuman intelligence and creativity. Audry considers learning procedures, describing how artists hijack the training process by playing with evaluative functions; discusses trainable machines and models, explaining how different types of machine learning systems enable different kinds of artistic practices; and reviews the role of data in machine learning art, showing how artists use data as a raw material to steer learning systems and arguing that

machine learning allows for novel forms of algorithmic remixes.

**Boom** Nov 30 2020 The meteoric rise of the largest unregulated financial market in

the world-for contemporary art-is driven by a few passionate, guileful, and very hard-nosed dealers. They can make and break careers and fortunes. The contemporary art market is an international juggernaut, throwing off multimillion-dollar deals as wealthy buyers move from fair to fair, auction to auction, party to glittering party. But none of it would happen without the dealers-the tastemakers who back emerging artists and steer them to success, often to see them picked off by a rival. Dealers operate within a private world of handshake agreements, negotiating for the highest commissions. Michael Shnayerson, a longtime contributing editor to Vanity Fair, writes the first ever definitive history of their activities. He has spoken to all of today's so-called mega dealers-Larry Gagosian, David Zwirner, Arne and Marc Glimcher, and Iwan Wirth-along with dozens of other dealers-from Irving Blum to Gavin Brown-who worked with

the greatest artists of their times: Jackson Pollock, Andy Warhol, Cy Twombly, and more. This kaleidoscopic history begins in the mid-1940s in genteel poverty with a scattering of galleries in midtown Manhattan, takes us through the ramshackle 1950s studios of Coenties Slip, the hipster locations in SoHo and Chelsea, London's Bond Street, and across the terraces of Art Basel until today. Now, dealers and auctioneers are seeking the first billion-dollar painting. It hasn't happened yet, but they are confident they can push the price there soon.

[The Art of Gathering](#) Jun 18 2022 "Hosts of all kinds, this is a must-read!" --Chris Anderson, owner and curator of TED From the host of the New York Times podcast *Together Apart*, an exciting new approach to how we gather that will transform the ways we spend our time together—at home, at work, in our communities, and beyond. In *The Art of Gathering*, Priya Parker argues that the gatherings in our lives are lackluster and unproductive--which they don't have to be. We rely too much on routine and the conventions of gatherings when we should focus on distinctiveness and the people involved. At a time when coming together is more important than ever, Parker sets forth a human-centered approach to gathering that will help everyone create meaningful, memorable experiences, large and small, for work and for play. Drawing

on her expertise as a facilitator of high-powered gatherings around the world, Parker takes us inside events of all kinds to show what works, what doesn't, and why. She investigates a wide array of gatherings--conferences, meetings, a courtroom, a flash-mob party, an Arab-Israeli summer camp--and explains how simple, specific changes can invigorate any group experience. The result is a book that's both journey and guide, full of exciting ideas with real-world applications. The Art of Gathering will forever alter the way you look at your next meeting, industry conference, dinner party, and backyard barbecue--and how you host and attend them.

**Authority and Freedom** Mar 15 2022 From one of our most widely admired art critics comes a bold and timely manifesto reaffirming the independence of all the arts—musical, literary, and visual—and their unique and unparalleled power to excite, disturb, and inspire us. As people look to the arts to promote a particular ideology, whether radical, liberal, or

conservative, Jed Perl argues that the arts have their own laws and logic, which transcend the controversies of any one moment. “Art’s relevance,” he writes, “has everything to do with what many regard as its irrelevance.” Authority and Freedom will find readers from college classrooms to foundation board meetings—wherever the arts are confronting social, political, and economic ferment and heated debates about political correctness and cancel culture. Perl embraces the work of creative spirits as varied as Mozart, Michelangelo, Jane Austen, Henry James, Picasso, and Aretha Franklin. He contends that the essence of the arts is their ability to free us from fixed definitions and categories. Art is inherently uncategorizable—that’s the key to its importance. Taking his stand with artists and thinkers ranging from W. H. Auden to Hannah Arendt, Perl defends works of art as adventuresome dialogues, simultaneously dispassionate and impassioned.

He describes the fundamental sense of vocation—the engagement with the tools and traditions of a medium—that gives artists their purpose and focus. Whether we're experiencing a poem, a painting, or an opera, it's the interplay between authority and freedom—what Perl calls "the lifeblood of the arts"—that fuels the imaginative experience. This book will be essential reading for everybody who cares about the future of the arts in a democratic society.

An excerpt from the book: 'I can still remember the thrill I experienced when my first folded book structure emerged from my fingers - how eager I was to explore its possibilities and to share it with whoever was interested. The Flag Book, as I now call it, is a simple accordion and has interlocking pages oriented in opposite directions. Little did I know that this simple structure would have legs and be the catalyst for the next forty-plus years of thinking about and making books. The common perception of the book today is fairly straightforward: a series of pages organized around a spine and protected on either side by two covers. This format allows for easy access, storage and retrieval of information. Yet what happens when the book is stripped away of centuries of preconceptions and is allowed to reveal something else: playfulness, utility, invention? Expanding the notion of the book is what the structures in the following chapters of *The Art of the Fold*

attempt to do. Exploring its tactile, sculptural form, primarily through folding methods, the book as a structural object is celebrated while content is considered in a new and unconventional way. My range in this medium has always been broad. In part this is due to my introduction to the world of bookbinding and some chance encounters. In the 1970s in New York City, the art and craft of hand bookbinding and papermaking were experiencing an unprecedented revival. I was fortunate to arrive in the city at just this moment. With an art-school background and an impulse to make things, I was naturally drawn to pursue this new opportunity. The Center for Book Arts, the famous forerunner of so many centers yet to come, was located in a small storefront just down the street from where I lived on the Lower East Side of Manhattan. Under the direction of founder Richard Minsky, it had a radical mission: to push concept, materials, printing and making of artist books in a

new direction. When Richard dared me to teach at the Center one evening a week, I was hooked. My career as a book conservator and a book artist has now spanned over 45 years. As head conservator at the American Philosophical Society in Philadelphia, I've had the opportunity to handle some of the rarest volumes and manuscripts in the world. I have also dealt with decrepit books, torn maps and countless curiosities discovered in stacks and archives. All were endless sources for ideas and provided a springboard for a departure from tradition. Leading book-arts workshops around the world and a 25 year tenure teaching in the graduate program for Book Arts and Printmaking at the University of the Arts in Philadelphia have shown me, in retrospect, that the more I taught, t

**The Art of Reading** Aug 28 2020 "Why do artists love books?" This volume takes this tantalizingly simple question as a starting point to reveal centuries of symbiosis between the visual and literary arts. First looking at the development of printed books

and the simultaneous emergence of the modern figure of the artist, *The Art of Reading* appraises works by the many great masters who took inspiration from the printed word. Authors Jamie Camplin and Maria Ranauro weave together an engaging cultural history that probes the ways in which books and paintings represent a key to understanding ourselves and the past. Paintings contain a world of information about religion, class, gender, and power, but they also reveal details of everyday life often lost in history texts. Such artworks show us not only how books have been valued over time but also how the practice of reading has evolved in Western society. Featuring over one hundred works by artists from across Europe and the United States and all painting genres, *The Art of Reading* explores the two-thousand-year story of the great painters and the preeminent information-providing, knowledge-endowing, solace-giving, belief-

supporting, leisure-enriching, pleasure-delivering medium of all time: the book.

### **Art & Crime** Mar 03 2021 A

thrilling, eye-popping look at true crime in the billion-dollar art world. The art world is one of the most secretive of global businesses, and the list of its crimes runs long and deep. Today, with prices in the hundreds of millions for individual artworks, and billionaires' collections among the most conspicuous and liquid of their assets, crime is more rampant than ever in this largely unregulated universe. Increased prices and globalization have introduced new levels of fraud and malfeasance into the art world—everything from "artnapping," in which an artwork is held hostage and only returned for a ransom, to forgery and tax fraud. However, the extent of the economic and cultural

damage that results from criminality in the global art scene rarely comes to light. The stories of high-stakes, brazen art crimes told by art experts Stefan Koldehoff and Tobias Timm are by turns thrilling, disturbing, and unbelievable (the imagination for using art to commit crimes seems boundless). The authors also provide a well-founded analysis of what needs to change in the art market and at museums. From the authors of *False Pictures, Real Money* (about the Beltracchi art forgery case), *Art and Crime* includes a chapter on art owned by Donald Trump. It is a thoroughly researched, explosive, and highly topical book that uncovers the extraordinary and multifarious thefts of art and cultural objects around the world.
