Answering the Ultimate Question May 16 2022 Fred Reichheld's 2006 book *The Ultimate Question*, that question being, "How likely is it that you would recommend this company to a friend or colleague?"—challenged the conventional wisdom of customer satisfaction programs. It coined the terms 'bad profits' and 'good profits' and pointed to a faster, much more accurate way of gauging customers' real loyalty to a company, introducing a quantitative measure (the Net Promoter Score) for establishing a baseline and effectively tracking changes going forward. Richard Owen and Laura Brooks are co-developers, along with Reichheld, of the

methodology behind answering the question. In this book, Owen and Brooks tell how based on a variety of real case studies' to actually embed Net Promoter discipline in organizations of all types.

True Friendship Jan 20 2020 We all want true friends. But how many of us really know what friendship is, or where to find it? In these pages, philosopher John Cuddeback weaves together the timeless wisdom of Scripture, of the ancient Greeks, and the saints to map out the steep and beautiful path to man's greatest joy—true friendship. Following Aristotle's teachings on the unbreakable connection between happiness and virtuous living, Cuddeback sees friendship at the very center of the human drama. Although there are different kinds of friendship, the deepest kind can only be achieved through a life of virtue, and this is where the human person comes most fully alive. True Friendship offers simple yet rich advice on how to tap into this reality in our own lives. Such friendship demands much of us, but it gives us even more, as individuals and as a society. Both the Old and New Testaments place a premium on friendship. In the Christian vision, the philosophers' insights attain a broader supernatural perspective. Christ transforms human friendship and expands it. With help from the writings of Saints Thomas and Aelred, Cuddeback discovers what lies at the heart of the Christian life—the wondrous and unsurpassable reality of friendship with God in Jesus, the Divine Friend, who is at work in all our authentic friendships.

The Meaning of Life and Death May 24 2020 What is the point of living? If we are all going to die anyway, if nothing will remain of whatever we achieve in this life, why should we bother trying to achieve anything in the first place? Can we be mortal and still live a meaningful life? Questions such as these have been asked for a long time, but nobody has found a conclusive answer yet. The connection between death and meaning, however, has taken centre stage in the philosophical and literary work of some of the world's greatest writers: Fyodor Dostoyevsky, Leo Tolstoy, Soren Kierkegaard, Arthur Schopenhauer, Herman Melville, Friedrich Nietzsche, William James, Ludwig Wittgenstein, Marcel Proust, and Albert Camus. This book explores their ideas, weaving a rich tapestry of concepts, voices and images, helping the reader to understand the concerns at the heart of those writers' work and uncovering common themes and stark contrasts in their understanding of what kind of world we live in and what really matters in life.

The Ultimate Question 2.0 (Revised and Expanded Edition) Jan 12 2022 In the first edition of this landmark book, business loyalty guru Fred Reichheld revealed the

question most critical to your company ' s future:
“ Would you recommend us to a friend? ” By asking customers this question, you identify detractors, who sully your firm ' s reputation and readily switch to competitors, and promoters, who generate good profits and true, sustainable growth. You also generate a vital metric: your Net Promoter Score. Since the book was first published, Net Promoter has transformed companies, across industries and sectors, constituting a game-changing system and ethos that rivals Six Sigma in its power. In this thoroughly updated and expanded edition, Reichheld, with Bain colleague Rob Markey, explains how practitioners have built Net Promoter into a full-fledged management system that drives extraordinary financial and competitive results. With his trademark clarity, Reichheld:

- Defines the fundamental concept of Net Promoter, explaining its connection to your company ' s growth and sustained success
- Presents the closed-loop feedback process and demonstrates its power to energize employees and delight customers
- Shares new and compelling stories of companies that have transformed their performance by putting Net Promoter at the center of their business

John Valk argues that everyone has a worldview, and that worldview is often shaped and influenced by individual circumstances and situations. While worldviews have similar structures to one another, they vary in content, including differences in metanarratives, teachings, ethics, and more. In the course of explaining how worldviews respond to life's ultimate and existential challenges, the book poses ontological questions to highlight various (world)views on the nature of being and the human, and epistemological questions pertaining to sources of knowledge and certainty. Ultimate Questions Feb 25 2023 How to live meaningfully in the face of the unknowable We human beings had no say in existing—we just opened our eyes and found ourselves here. We have a fundamental need to understand who we are and the world we live in. Reason takes us a long way, but mystery remains. When our minds and senses are baffled, faith can seem justified—but faith is not knowledge. In *Ultimate Questions*, acclaimed philosopher Bryan Magee provocatively argues that we have no way of fathoming our own natures or finding definitive answers to the big questions we all face. With eloquence and grace, Magee urges us to be the mapmakers of what is intelligible, and to identify the boundaries of meaningfulness. He traces this tradition of thought to his chief philosophical mentors—Locke, Hume, Kant, and Schopenhauer—and shows why this approach to the enigma of existence can enrich our lives and transform our understanding of the human predicament. As Magee puts it, "There is a world of difference between being lost in the daylight and being lost in the dark." The crowning achievement to a distinguished philosophical

career, *Ultimate Questions* is a deeply personal meditation on the meaning of life and the ways we should live and face death.

The God Confusion Feb 13 2022 What is God? Does he exist? Can we know? The God Confusion offers a down-to-earth beginner's guide for anyone interested in these questions. It does not evangelize for God and religion or, indeed, for atheism, secularism and science. Instead, it explores in a witty yet objective and balanced way the idea of God and the strengths and weaknesses of the standard arguments for his existence. Gary Cox shows that the philosophical reasoning at the heart of these arguments is logically incapable of moving beyond speculation to any kind of proof. The only credible philosophical position is therefore agnosticism. The God Confusion defends science generally and the theory of evolution in particular. It argues that if religion is not to appear increasingly outdated and ridiculous in the eyes of free-thinking, educated people, it must accommodate science and accept that science has replaced the old God of the gaps as an explanation of natural phenomena. Concluding that God may or may not exist, on the grounds that science, philosophy and theology are inherently incapable of proving or disproving his existence, The God Confusion acknowledges that religious faith based on a deliberate commitment to live as though there is a moral God is a coherent notion and a worthwhile, even prudent enterprise. At the same time, it rejects the idea of inner certainty as mere wishful thinking, arguing that it is not a

coherent basis for belief and is simply bad faith.

Finding Ultimate Reality Feb 01 2021 We need a coherent picture of our world. Life ' s realities won ' t let us ignore its fundamental questions, but with so many opposing views, how will we choose answers that are reliable? In this series of books, David Gooding and John Lennox offer a fair analysis of religious and philosophical attempts to find the truth about the world and our place in it. By listening to the Bible alongside other leading voices, they show that it is not only answering life ' s biggest questions—it is asking better questions than we ever thought to ask. In Book 2 – Finding Ultimate Reality, they remind us that the authority behind ethics cannot be separated from the truth about ultimate reality. Is there a Creator who stands behind his moral law? Are we the product of amoral forces, left to create moral consensus? Gooding and Lennox compare ultimate reality as understood in: Indian Pantheistic Monism, Greek

Philosophy and Mysticism, Naturalism and Atheism, and Christian Theism.
