*Intertextuality and the Reading of Roman Poetry* Jul 26 2020 How can we explain the process by which a literary text refers to another text? For the past decade and a half, intertextuality has been a central concern of scholars and readers of Roman poetry. In *Intertextuality and the Reading of Roman Poetry*, Lowell Edmunds proceeds from such fundamental concepts as "author," "text," and "reader," which he then applies to passages from Vergil, Horace, Ovid, and Catullus. Edmunds combines close readings of poems with analysis of recent theoretical models to argue that allusion has no linguistic or semiotic basis: there is nothing in addition to the alluding words that causes the allusion or the reference to be made. Intertextuality is a matter of reading.

**The Fiction of Occasion in Hellenistic and Roman Poetry** Sep 20 2022 The aim of this book is to devise a method for approaching the problem of presence in Hellenistic and Roman poetry. The problem of presence, as defined here, is the problem of the availability or accessibility to the reader of the fictional worlds disclosed by poetry. From Callimachus' Hymns to the Odes of Horace, poets of this era repeatedly challenge readers by beckoning them to explore fictive spaces which are at once familiar and otherworldly, realms of the imagination which are nevertheless firmly rooted in the lived reality of the poets and their contemporaries. We too, when we read these poems, may feel simultaneously a sense of being transported to a world apart and of being seized upon by the poem's address in the here and now of reading. The fiction of occasion is proposed as a new conceptual tool for understanding how these poems produce such problematic presences and what varieties of experience they make possible for their readers. The fiction of occasion is defined as a phenomenon whereby a poem is fictionally framed as part of a material event or 'occasion' with which the reader is invited to engage through the medium of the senses. The book explores this concept through close readings of key authors from the corpus of first-person poetry written in Greek and Latin between the 3rd century BCE and the 1st century CE, with a focus on Callimachus, Bion, Catullus, Propertius, and Horace. The ultimate purpose of these readings is to move towards developing a new vocabulary for conceptualising ancient poetry as an embodied experience.

**Augustan Poetry and the Roman Republic** Feb 13 2022 Augustan Poetry and the Roman Republic explores the liminal status of the Augustan period, with its inherent tensions between a rhetoric based on the idea of *res publica restituta* and the expression of the need for a radical renewal of the Roman political system. It attempts to examine some of the ways in which the Augustan poets dealt with these and other related issues by discussing the many ways in which individual texts handle the idea of the Roman Republic. Focusing on the works of the major Augustan poets, Vergil, Horace, Propertius, and Ovid, the contributions in this collection look at the under-studied aspect of their poetry, namely the way in which they constructed and investigated images of the Roman Republic and the Roman past.

**The Roman Poets of the Augustan Age** Sep 08 2021

**Fragments of Roman Poetry C.60 BC-AD 20** Oct 21 2022 An edition and translation of a collection of fragments of Roman poetry composed between 60 BC and AD 20, when Latin literature was at its height. Study of these fragmentary texts enables us better to appreciate surviving great poets such as Catullus and Virgil.

*Figures of Thought in Roman Poetry* May 16 2022 It has long been assumed that the language of Roman poetry was constructed under the dictates of elaborately defined rules of rhetoric, and its content determined according to the system of comparable classifications called invention. This belief has persisted in spite of the difficulty of fitting the works of Catullus, Horace, Virgil, Propertius, and Tibullus into such a rigid scheme. In this book Gordon Williams demonstrates that, although Ovid and his successors did indeed assimilate their poetry to the rhetorical rules devised for prose, the earlier poets employed a quite different method. Williams sees this method as falling into either a metaphorical or metonymic mode, both of which permitted the poet to say one thing and mean another. Delicate and often startling transitions of thought could be grasped-though not necessarily on first reading-by readers assumed by the poet to have a special access to the poet's process of thought. This access presupposed similarities of education, social position, and sympathetic understanding. Through close analyses of many poems, Williams shows how poets in the fifty years before Horace's death exploited metaphor, metonymy, and a third device that he calls thematic anticipation to evoke subtle associations of thought. In doing so he elucidates problems of Latin poems that have been generally misunderstood almost since they day they were written.

*The Treatment of Nature in the Poetry of the Roman Republic* Aug 07 2021 An examination of nature in poetry from the Roman Republic.

Selected Fragments of Roman Poetry Jun 05 2021

**The Roman Poetry of Love** Aug 19 2022 The Roman Poetry of Love explores the formation of a key literary genre in a troubled historical and political setting. The short-lived genre of Latin love elegy produced spectacular, multi-faceted and often difficult poetry. Its proponents Catullus, Tibullus, Propertius and Ovid remain to this day some of the most influential poetic voices of Western civilisation. This accessible introduction combines aesthetic analysis with socio-political context to provide a concise but comprehensive portrait of the Roman elegy, its main participants and its cultural and political milieu. Focusing on a series of specific poems, the title portrays the development of the genre in the context of the Emperor Augustus' ascent to power, following recognizable threads through the texts to build an understanding of the relationship between this poetry and the increasingly totalising regime. Highlighting and examining the intense affectation of love in these poems, *The Roman Poetry of Love* explores the works not simply as an expression of a troubled male psychology, but also as a reflection of the overwhelming changes that swept through Rome and Italy in the transition from the late Republic to the Augustan Age.

*Allusion and Intertext* Apr 03 2021 The study of the deliberate allusion by one author to the words of a previous author has long been central to Latin philology. However, literary Romanists have been diffident about situating such work within the more spacious inquiries into intertextuality now current. This 1998 book represents an attempt to find (or recover) some space for the study of allusion - as a project of continuing vitality - within an excitingly enlarged universe of intertexts. It combines traditional classical approaches with modern literary-theoretical ways of thinking, and offers attentive close readings, innovative perspectives on literary history, and theoretical sophistication of argument. Like other volumes in the series it is among the most broadly conceived short books on Roman literature to be published in recent years.

**Catullus** Feb 01 2021 Surveys the golden age of the Roman Republic, focusing on the life of the poet Catullus, a man from a privileged background who garnered a notorious reputation for his poetry and his outlandish behavior.

**The Poetry of John Paul II** Oct 17 2019 "Publication No. 5-556"--Page facing title page Contents: The stream -- Meditations on the book of Genesis at the threshold of the Sistine Chapel -- A hill in the land of Moriah.

**Ovid: Ars Amatoria, Book III** May 24 2020 This is a full-scale commentary devoted to the third book of Ovid's *Ars Amatoria*. It includes an Introduction, a revision of E. J. Kenney's Oxford text of the book, and detailed line-by-line and section-by-section commentary on the language and ideas of the text. Combining traditional philological scholarship with some of the concerns of more recent critics, both Introduction and commentary place particular emphasis on: the language of the text; the relationship of the book to the didactic, 'erotodidactic' and elegiac traditions; Ovid's usurpation of the *lena's* traditional role of erotic instructor of women; the poet's handling of the controversial subjects of cosmetics and personal adornment; and the literary and political significances of Ovid's unexpected emphasis in the text of *Ars III* on restraint and 'moderation'. The book will be of interest to all postgraduates and scholars working on Augustan poetry.

*Poems of Rome* Feb 25 2023 A beautiful hardcover Pocket Poets anthology of poems inspired by the art and architecture of the Eternal City. *Poems of Rome* ranges across the centuries and contains the work of poets from many cultures and times, from ancient Rome to contemporary America. Designed to accompany readers visiting the city--whether in person or in imagination--the book is divided into sections by place. Its pages lead the reader from the Roman Forum to the Colosseum, from the Vatican to the Villa Sciarra, from the Pantheon to the Palatine Hill, all seen through the eyes of poets who have been dazzled by these glorious sites for centuries. The poets range from Horace and Ovid to Pasolini and Pavese, and from Byron and Keats and Rilke to James Merrill, Adrienne Rich, Derek Walcott, and Jorie Graham, in a collection of international talent as scintillating as the great city itself.

**Roman Poems** Dec 23 2022 The Italian film-maker Pier Paolo Pasolini was first and always a poet-the most important civil poet, according to Alberto Moravia, in Italy in the second half of this century. His poems were at once deeply personal and passionately engaged in the political turmoil of his country. In 1949, after his homosexuality led the Italian Communist Party to expel him on charges of "moral and political unworthiness," Pasolini fled to Rome. This selection of poems from his early impoverished days on the outskirts of Rome to his last (with a backward longing glance at his native Frill) is at the center of his poetic and filmic vision of modern Italian life as an Inferno. Pier Paolo Pasolini was born in 1922 in Bologna. In addition to the films for which he is world famous, he wrote novels, poetry, and social and cultural criticism. He was murdered in 1975.

**The Poems of Thomas Babington Macaulay ; Lays of Ancient Rome ; Miscellaneous Poems** Apr 22 2020

*Romans Ruled* Apr 15 2022 A great collection of entertaining and educational poems for kids, telling amazing stories all about the Ancient Romans. Written in a modern, lively style, these poems are fun to read but also historically accurate. The stories include Romulus and Remus , Spartacus, Hannibal, Boudica, Pompeii, and many more. Charmingly illustrated, this book will appeal to children between the ages of 7 and 12 who are studying or interested in ancient history, as well as to parents of younger children looking for an alternative to the usual bedtime story picture books.

*Reading Rivers in Roman Literature and Culture* Oct 09 2021 This study examines rivers as a literary phenomenon, particularly in the poetry of Vergil. It first considers the Greco-Roman understanding of the river in its primary symbolic roles, cosmological, ritual and ethnographical, and then analyzes the river as a literary device, arguing that descriptions of rivers in Roman poetry are, in many cases, a form of authorial comment on the progress or structure of a narrative.

**The Oxford Anthology of Roman Literature** Nov 29 2020 Though the wonders of ancient Roman culture continue to attract interest across the disciplines, it is difficult to find a lively, accessible collection of the full range of the era's literature in English. The Oxford Anthology of Roman Literature provides a general introduction to the literature of the Roman empire at its zenith, between the second century BC and the second century AD. Two features of this extraordinarily fertile period in literary achievement as evidenced by this anthology are immediately and repeatedly clear: how similar the Romans' view of the world was to our own and, perhaps even more obviously, how different it was. Most of the authors included in the anthology wrote in Latin, but as the anthology moves forward in time, relevant Greek texts that reflect the cultural diversity of Roman literary life are also included, something no other such anthology has done in the past. Roman literature was wonderfully creative and diverse, and the texts in this volume were chosen from a broad range of genres: drama, epic, philosophy, satire, lyric poetry, love poetry. By its very nature an anthology can abbreviate and thus obscure the most attractive features of even a masterpiece, so the two editors have not only selected texts that capture the essence of the respective authors, but also have included accompanying introductions and afterwords that will guide the reader in pursuing further reading. The presentations of the selections are enlivened with illustrations that locate the works within the contexts of the world in which they were written and enjoyed. The student and general reader will come away from this learned yet entertaining anthology with a fuller appreciation of the place occupied by literature in the Roman world.

**Roman Poets of the Early Empire** Jun 17 2022

**The Roman Poets of the Republic** Jul 18 2022 An examination of the poets of the Roman Republic.

**Roman Food Poems** Jan 12 2022 This is a parallel text collection of the best Latin poems on food, translated into poetic English.

**In the Flesh** Feb 19 2020 This original look at the Roman love elegies of Propertius, Tibullus, and Ovid engages postmodern and new materialist feminist theory to assert the significance in the poems of human bodies in all their vulnerability, sexiness, and materiality. This analysis underscores the impact marginalized characters such as mistresses and enslaved individuals have on the genre.

Women Poets in Ancient Greece and Rome Jul 06 2021 Although Greek society was largely male-dominated, it gave rise to a strong tradition of female authorship. Women poets of ancient Greece and Rome have long fascinated readers, even though much of their poetry survives only in fragmentary form. This pathbreaking volume is the first collection of essays to examine virtually all surviving poetry by Greek and Roman women. It elevates the status of the poems by demonstrating their depth and artistry. Edited and with an introduction by Ellen Greene, the volume covers a broad time span, beginning with Sappho (ca. 630 b.c.e.) in archaic Greece and extending to Sulpicia (first century B.C.E.) in Augustan Rome. In their analyses, the contributors situate the female poets in an established male tradition, but they also reveal their distinctly "feminine" perspectives. Despite relying on literary convention, the female poets often defy cultural norms, speaking in their own voices and transcending their positions as objects of derision in male-authored texts. In their innovative reworkings of established forms, women poets of ancient Greece and Rome are not mere imitators but creators of a distinct and original body of work.

Two Centuries of Roman Poetry Nov 17 2019 First published by Macmillan in 1964, this volume is designed to introduce students to a wider range of Latin poetry than they would encounter in a simple author

prescription. The first century BC is represented by Lucretius and Catullus, the Augustan era by Virgil, Horace and Ovid, and the Silver age by Juvenal and Martial. Passages are chosen for their own intrinsic interest - Ovid on Romulus and Remus, Juvenal on the dangers of Rome at night, the shield of Aeneas from Virgil Aeneid VIII ; they cover a wide variety of genres and styles - both Satires and Odes of Horace, elegiacs from the Fasti and hexameters from the Metamorphoses of Ovid. There are extensive notes on language and content, an introduction on metre and a full vocabulary.

The Poems of Exile Jan 24 2023 "This is no small achievement. For the language-lover the translation provides elegant, flowing English verse, for the classicist it conveys close approximation to the Latin meaning coupled with a sense of the movement and rhythmic variety of Ovid's language"—Geraldine Herbert-Brown, editor of Ovid's Fasti: Historical Readings at its Bimillennium "This book fills a gap. There is no similar annotated English translation of Ovid's exile poetry. Thoroughly grounded in Ovidian scholarship, Green's introduction and notes are helpful and informative. The translation is accurate, idiomatic, and lively, closely imitating the Latin elegiac couplet and capturing Ovid's changing moods."—Karl Galinsky, author of Ovid's Metamorphoses: An Introduction to the Basic Aspects

**Damasus of Rome** Mar 22 2020 Damasus of Rome makes available in English the epigraphic poetry of Damasus, bishop of Rome from 366 to 384. The translations are accompanied by the Latin text as well as by commentary on the literary, topographic, and archaeological features of Damasus' inscribed epigrams. Antonio Ferrua published the last critical edition of Damasus' poetry in 1942. Since Ferrua's ground-breaking edition, however, much has changed. Recent scholarship has challenged the Damasan authorship of several epigrams, other pieces have been reinstated as Damasan, and archaeology has added fragments that were not known in 1942. Moreover in recent years new ways of appreciating Late Latin poetry have revolutionized thinking about many poets contemporary with Damasus. Damasus of Rome, therefore, not only offers new translations but updates the corpus and criticism of Damasus' poetry. A full introduction situates Damasus in his times by considering his troubled election and the issues that dominated Rome and his papacy. The introduction also sets the poems within the broader sweep of the history of epigraphic poetry at Rome and relates them both to the development of the Christian catacombs and to the emergence of the cults of the Roman saints. Modern scholarship readily acknowledges that the years of Damasus' episcopacy were pivotal ones in the transformation of Rome into a late antique Christian city. His poetry, much of it inscribed at the suburban tombs of the Roman saints and martyrs, played an incalculable but significant role in the redefinition of both Roman and Christian identity in this remarkable age. Damasus of Rome now makes that poetry more readily available to scholars and students alike.

**The Fiction of Occasion in Hellenistic and Roman Poetry** Oct 29 2020 The aim of this book is to devise a method for approaching the problem of presence in Hellenistic and Roman poetry. The problem of presence, as defined here, is the problem of the availability or accessibility to the reader of the fictional worlds disclosed by poetry. From Callimachus' Hymns to the Odes of Horace, poets of this era repeatedly challenge readers by beckoning them to explore fictive spaces which are at once familiar and otherworldly, realms of the imagination which are nevertheless firmly rooted in the lived reality of the poets and their contemporaries. We too, when we read these poems, may feel simultaneously a sense of being transported to a world apart and of being seized upon by the poem's address in the here and now of reading. The fiction of occasion is proposed as a new conceptual tool for understanding how these poems produce such problematic presences and what varieties of experience they make possible for their readers. The fiction of occasion is defined as a phenomenon whereby a poem is fictionally framed as part of a material event or 'occasion' with which the reader is invited to engage through the medium of the senses. The book explores this concept through close readings of key authors from the corpus of first-person poetry written in Greek and Latin between the 3rd century BCE and the 1st century CE, with a focus on Callimachus, Bion, Catullus, Propertius, and Horace. The ultimate purpose of these readings is to move towards developing a new vocabulary for conceptualising ancient poetry as an embodied experience.

ROME: Poems May 04 2021 "Fearlessly frank" and "unabashedly vulnerable" (Tracy K. Smith), Dorothea Lasky's ROME confronts love and heartbreak in the modern world. Dorothea Lasky is one of the most talented American poets of her generation. With haunting lines that "recall Frank O'Hara and Allen Ginsberg" (Chicago Tribune) and influences ranging from Drake to Catullus, Lasky fuses the ancient world with the fierceness and heartbreak of everyday life. With each new book, from the grand religiosity of AWE to the flat sadness and nihilism of Black Life to the witchery of Thunderbird, her poems keep gaining an increasingly robust readership and have influenced an entire generation of younger poets. In ROME, Lasky finds herself in the arena of eternal longing and heartsick desire, confronting her ghosts and demons and proving she's "one of the very best poets we've got" (Maggie Nelson).

**The Roman Poets of the Augustan Age** Nov 22 2022 A detailed discussion and analysis of Roman poetry written during the reign of Augustus, first published in 1891.

The Roman Poets of the Augustan Age--Virgil Mar 14 2022

*Persuasion, Rhetoric and Roman Poetry* Dec 11 2021 Offers a radical re-appraisal of rhetoric's relation to literature, with fresh insights into rhetorical sources and their reception in Roman poetry.

**Ancient Latin Poetry Books** Dec 31 2020 Before the invention of printing, all forms of writing were done by hand. For a literary text to circulate among readers, and to be transmitted from one period in time to another, it had to be copied by scribes. As a result, two copies of an ancient book were different from one another, and each individual book or manuscript has its own history. The oldest of these books, those that are the closest to the time in which the texts were composed, are few, usually damaged, and have been often neglected in the scholarship. Ancient Latin Poetry Books presents a detailed study of the oldest manuscripts still extant that contain texts by Latin poets, such as Virgil, Terence, and Ovid. Analyzing their physical characteristics, their script, and the historical contexts in which they were produced and used, this volume shows how manuscripts can help us gain a better understanding of the history of texts, as well as of reading habits over the centuries. Since the manuscripts originated in various places of the Latin-speaking world, Ancient Latin Poetry Books investigates the readership and reception of Latin poetry in many different contexts, such schools in the Egyptian desert, aristocratic circles in southern Italy, and the Christian elite in late antique Rome. The research also contributes to our knowledge about the use of writing and the importance of the written text in antiquity. This is an innovative approach to the study of ancient literature, one that takes the materiality of texts into consideration.

Didactic Poetry of Greece, Rome and Beyond Sep 27 2020 Here a team of established scholars offers new perspectives on poetic texts of wisdom, learning and teaching related to the great line of Greek and Latin poems descended from Hesiod. In previous scholarship, a drive to classify Greek and Latin didactic poetry has engaged with the near-total absence in ancient literary criticism of explicit discussion of didactic as a discrete genre. The present volume approaches didactic poetry from different perspectives: the diachronic, mapping the development of didactic through changing social and political landscapes (from Homer and Hesiod to Neo-Latin didactic); and the comparative, setting the Graeco-Roman tradition against a wider backdrop (including ancient near-eastern and contemporary African traditions). The issues raised include knowledge in its relation to power; the cognitive strategies of the didactic text; ethics and poetics; the interplay of obscurity and clarity, playfulness and solemnity; the authority of the teacher.

**The Last Poets of Imperial Rome** Jun 24 2020 A collection of Latin verse, translated into English, of the second to the fifth centuries A.D. from all parts of the Roman Empire and beyond: Italy, Spain, Carthage, Gaul, Ireland. There is a wide variety of themes: pastoral, mythological, Christian philosophical, aristocratic life and customs, the sacking of Rome by the Visigoths and regrets at the passing of the Empire. Running through all this is the theme of the fall of Rome, both literally in the destruction of the city, and generally in its gradual decline as cultural and political world centre.

**Painting, Poetry, and the Invention of Tenderness in the Early Roman Empire** Mar 02 2021 This book connects the emergence of Latin love elegy and a new, tender style in Roman wall painting.

**Roman Poetry and Propaganda in the Age of Augustus** Jan 20 2020 The political aspects of Augustan poetry have attracted much academic interest. The aim of this study is to take account of the effects of Augustan

propaganda not only on the work of contemporary Roman writers, but also on the critical tradition itself. The six essays presented in this volume explore the political themes in the work of major poets such as Virgil, Ovid, Horace and Propertius. Using traditional as well as post-structuralist approaches, the essays examine the controversies of the Civil Wars, the emerging issues of treason and free speech and changing representations of Cleopatra and female power.

**The Roman Elegiac Poets** Nov 10 2021

*Imagined Romes* Dec 19 2019 This volume explores the conflicting representations of ancient Rome—one of the most important European cities in the medieval imagination—in late Middle English poetry. Once the capital of a great pagan empire whose ruined monuments still inspired awe in the Middle Ages, Rome, the seat of the pope, became a site of Christian pilgrimage owing to the fame of its early martyrs, whose relics sanctified the city and whose help was sought by pilgrims to their shrines. C. David Benson analyzes the variety of ways that Rome and its citizens, both pre-Christian and Christian, are presented in a range of Middle English poems, from lesser-known, anonymous works to the poetry of Gower, Chaucer, Langland, and Lydgate. Benson discusses how these poets conceive of ancient Rome and its citizens—especially the women of Rome—as well as why this matters to their works. An insightful and innovative study, *Imagined Romes* addresses a crucial lacuna in the scholarship of Rome in the medieval imaginary and provides fresh perspectives on the work of four of the most prominent Middle English poets.

*The Priapus Poems* Aug 27 2020 Unmistakable by virtue of his exaggerated phallus, Priapus—one of Rome's minor fertility gods—inspired a host of epigrammatic poems that offer one of the best primary sources for the study of ancient sexuality. Despite their apparent frivolity, the Priapus poems raise basic questions of class and gender, censorship, and the nature of obscenity. The god's self-conscious indecency placed him squarely in the realm of comedy, but his role as guardian of fertility also gave him a deep religious significance. Richard Hooper's introduction explores this important duality and places the poems in their historical context.

Essentially graffiti clothed in the refined forms of classical poetry, *The Priapus Poems* offers the reader "a trip to Coney Island in a Rolls Royce." Hooper's lively translation makes these playful poems available for the first time to the nonspecialist in an appealing, elegant, and readable version. This edition includes the original Latin texts as well as a commentary on classical references and textual problems.
